INDEPENDENT AUDITORS' REPORT

Dr. Lottie P. Beebe, Superintendent
and Members of the St. Martin Parish
School Board
Breaux Bridge, Louisiana

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the St. Martin Parish School Board as of and for the year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the School Board's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of

accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the St. Martin Parish School Board as of June 30, 2016, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the budgetary comparison information, schedule of funding progress, schedule of employer's share of net pension liability, schedule of employer contributions, and notes to the required supplementary information on pages 70 through 75 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Management has omitted the management's discussion and analysis that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

Other Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the St. Martin Parish School Board's basic financial statements. The schedule of expenditures of federal awards as required by Title 2 U.S. *Code of Federal Regulations* (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, and the schedules required by state law are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The schedule of expenditures of federal awards is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial

statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated in all material respects in relation to the basic financial statements as a whole.

The schedules required by state law have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated December 15, 2016, on our consideration of the St. Martin Parish School Board's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the St. Martin Parish School Board's internal control over financial reporting and compliance.

Notes to Basic Financial Statements

Introduction

The St. Martin Parish School Board (School Board) was created by Louisiana Revised Statute (LSA-R.S.) 17:51 for the purpose of providing public education for the children within St. Martin Parish. The School Board is authorized by LSA-R.S. 17:51 to establish policies and regulations for its own government consistent with the laws of the State of Louisiana and the regulations of the Louisiana Board of Elementary and Secondary Education. The School Board is comprised of ten members who are elected from ten districts for terms of four years.

The School Board operates sixteen schools within the parish. In conjunction with the regular educational programs, some of these schools offer special education and/or adult education programs. In addition, the School Board provides transportation and school food services for the students. The School Board collects sales taxes levied in St. Martin Parish on behalf of itself and all other governmental units.

(1) Summary of Significant Accounting Policies

The accompanying financial statements of the St. Martin Parish School Board have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The accounting and reporting framework and the more significant accounting policies are discussed below.

A. Financial Reporting Entity

For financial reporting purposes, the School Board includes all funds and activities that are within the oversight responsibility of the School Board. Because the School Board members are independently elected and are solely accountable for fiscal matters, which include (1) budget authority, (2) responsibility for funding deficits and operating deficiencies, and (3) fiscal management for controlling the collection and disbursement of funds, and because of the scope of public service provided by the School Board, the School Board is a separate governmental reporting entity, primary government.

Certain units of local government over which the School Board exercises no oversight responsibility, such as the parish government, other independently elected parish officials, and municipalities within the parish, are excluded from the accompanying financial statements. These units of government are considered separate reporting entities and issue financial statements separate from that of the School Board. The School Board is not a component unit of any other entity and does not have any component units, which require inclusion in the financial statements of the School Board.

ST. MARTIN PARISH SCHOOL BOARD
Breux Bridge, Louisiana

Notes to Basic Financial Statements (Continued)

B. Basis of Presentation

Government-Wide Financial Statements (GWFS)

The statement of net position and the statement of activities display information about the School Board, the primary government, as a whole. They include all funds of the reporting entity, which are considered to be governmental activities. The School Board's internal service fund is a governmental activity. Internal service fund activity is eliminated to avoid "doubling up" of revenues and expenses. Fiduciary funds are not included in the GWFS. Fiduciary funds are reported only in the Statement of Fiduciary Net Position at the fund financial statement level.

The statement of activities presents a comparison between direct expenses and program revenues for each function of the School Board's governmental activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. Program revenues include (a) fees and charges paid by the recipients of goods or services offered by the programs, and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

Fund Financial Statements (FFS)

The accounts of the School Board are organized and operated on the basis of funds. A fund is an independent fiscal and accounting entity with a separate set of self-balancing accounts. Fund accounting segregates funds according to their intended purpose and is used to aid management in demonstrating compliance with finance-related legal and contractual provisions. Fund financial statements report detailed information about the School Board.

The various funds of the School Board are classified into three categories: governmental, proprietary, and fiduciary. The emphasis on fund financial statements is on major funds, each displayed in a separate column. A fund is considered major if it is the primary operating fund of the School Board or meets the following criteria:

- a. Total assets, liabilities, revenues, or expenditures/expenses of that individual governmental or enterprise fund are at least 10 percent of the corresponding total for all funds of that category or type; and
- b. Total assets, liabilities, revenues, or expenditures/expenses of the individual governmental or enterprise fund are at least 5 percent of the corresponding total for all governmental and enterprise funds combined.

ST. MARTIN PARISH SCHOOL BOARD
Breaux Bridge, Louisiana

Notes to Basic Financial Statements (Continued)

The School Board reports the following major governmental funds:

The General Fund is the general operating fund of the School Board. It accounts for all financial resources except those required to be accounted for in other funds.

The major special revenue fund is the State and Local Special Revenue Funds (which is comprised of the School Lunch Fund, the Other State Grants Fund, the Health Centers Fund, and the 1965 Sales Tax Fund). These funds account for revenues and expenditures related to certain state and local grant and entitlement programs as well as other legally restricted funds.

The Capital Projects Fund, which includes the 2009 Construction Fund, the 2010 Construction Fund, the 2011 Construction Fund, the 2013 Construction Fund, the 2016 Construction Fund, the Capital Projects Fund, and the Transportation Fund, is also considered to be a major fund. These funds are used to account for financial resources to be used for the acquisition or construction of major capital facilities as well as various school improvements.

Additionally, the School Board reports the following fund types:

The nonmajor special revenue fund types include the Federal Titles Funds (which is comprised of Title I and Carryover and No Child Left Behind Titles II through VI) and the Federal Grant Funds (which is comprised of IDEA and Preschool, and Other Federal Grants Funds). These funds account for the revenues and expenditures related to certain federal, state and local grant and entitlement programs.

The Debt Service Fund, established to meet requirements of bond ordinances, is also considered to be a nonmajor fund. It is used to account for the accumulation of resources for and the payment of general long-term debt principal, interest, and related costs.

Proprietary Funds -

Proprietary funds are used to account for ongoing organizations and activities that are similar to those often found in the private sector. The measurement focus is based upon determination of net income, financial position, and cash flows. The following is the School Board's proprietary fund type:

Internal Service Funds

The Internal Service Fund (proprietary fund type) is used to account for the accumulation of resources for and the payment of benefits by the School Board's workers' compensation insurance program.

ST. MARTIN PARISH SCHOOL BOARD
Breaux Bridge, Louisiana

Notes to Basic Financial Statements (Continued)

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues are derived from contributions made from the employer and employees. These revenues are planned to match: (1) expenses of insurance premiums in excess of self-insurance amounts; (2) actual claims and estimated liabilities for claims incurred but not yet reported at year-end, and (3) operating expenses. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

Fiduciary Funds -

Fiduciary funds account for assets held by the government in a trustee capacity or as an agent on behalf of other funds within the School Board. The funds accounted for in this category by the School Board are the agency funds. The agency funds are as follows:

School Activity Fund – accounts for monies generated by the individual schools and organizations within the schools of the parish as well as allocations made by the School Board to individual schools and selected organizations. While the school activity accounts are under the supervision of the School Board, they belong to the individual schools or their student bodies and are not available for use by the School Board.

Sales Tax Fund – accounts for the collection and distribution of all sales taxes levied in the parish of St. Martin.

Private-purpose trust funds – accounts for contributions from members of the St. Martin Parish School Board to encourage students of high academic standing and achievement to enter the education profession.

C. Measurement Focus/ Basis of Accounting

Measurement focus is a term used to describe “which” transactions are recorded within the various financial statements. Basis of accounting refers to “when” transactions are recorded regardless of the measurement focus applied.

Measurement Focus

On the government-wide statement of net position and the statement of activities, the governmental activities are presented using the economic resources measurement focus as defined in item b. below. In the fund financial statements, the “current financial resources” measurement focus or the “economic resources” measurement focus is used as appropriate:

- a. All governmental funds utilize a “current financial resources” measurement focus. Only current financial assets and liabilities are generally included on their balance sheets. Their operating statements present sources and uses of

ST. MARTIN PARISH SCHOOL BOARD
Breux Bridge, Louisiana

Notes to Basic Financial Statements (Continued)

available spendable financial resources during a given period. These funds use fund balance as their measure of available spendable financial resources at the end of the period.

- b. The proprietary (internal service) fund utilizes an “economic resources” measurement focus. The accounting objectives of this measurement focus are the determination of operating income, changes in net position (or cost recovery), financial position, and cash flows. All assets and liabilities (whether current or noncurrent) associated with their activities are reported. Proprietary fund equity is classified as net position.

Basis of Accounting

In the government-wide statement of net position and statement of activities, the governmental activities are presented using the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded when the liability is incurred or economic asset used. Revenues, expenses, gains, losses, assets, deferred outflows of resources, liabilities, and deferred inflows of resources resulting from exchange and exchange-like transactions are recognized in accordance with the requirements of GASB Statement No. 33 “Accounting and Financial Reporting for Nonexchange Transactions.”

Program revenues

Program revenues included in the Statement of Activities are derived directly from the program itself or from parties outside the School Board’s taxpayers or citizenry, as a whole; program revenues reduce the cost of the function to be financed from the School Board’s general revenues.

Allocation of indirect expenses

The School Board reports all direct expenses by function in the Statement of Activities. Direct expenses are those that are clearly identifiable with a function. Indirect expenses of other functions are not allocated to those functions, but are reported separately in the Statement of Activities. Depreciation expense is specifically allocated by function and is included in the direct expense of each function. Interest on general long-term debt is considered an indirect expense and is reported separately on the Statement of Activities. Interest costs are not capitalized.

In the fund financial statements, governmental funds are presented on the modified accrual basis of accounting. Under this modified accrual basis of accounting, revenues are recognized when “measurable and available.” Measurable means knowing or being able to reasonably estimate the amount. Available means being collectible within the current period or within 60 days after year-end. Expenditures (including facilities acquisition and construction) are recorded when the related fund liability is incurred, except for general obligation bond principal and

ST. MARTIN PARISH SCHOOL BOARD
Breaux Bridge, Louisiana

Notes to Basic Financial Statements (Continued)

interest which are reported when due. The governmental funds use the following practices in recording revenues and expenditures:

Revenues

Federal and state entitlements (unrestricted grants-in-aid, which include state equalization and state revenue sharing) are recorded when available and measurable. Expenditure-driven federal and state grants, which are restricted as to the purpose of the expenditures, are recorded when the reimbursable expenditures have been incurred.

Ad valorem taxes are recorded in the year the taxes are due and payable. Ad valorem taxes are assessed in November, by the Parish Assessor, based on the assessed value and become due on December 31 of each year. The taxes become delinquent on January 1. An enforceable lien attaches to the property as of January 1. The taxes are generally collected in December, January, and February of the fiscal year. Property tax revenues are accrued at fiscal year-end to the extent that they have been collected but not received from the St. Martin Parish Tax Collector's Office. Such amounts are measurable and available to finance current operations.

Interest income on time deposits is recorded when earned.

Sales and use tax revenues are recorded in the month earned by the School Board.

Substantially all other revenues are recorded when received.

Expenditures

Salaries are recorded as expenditures when incurred. Nine-month employee salaries are incurred over a nine-month period but paid over a twelve-month period.

Compensated absences are recognized as expenditures when leave is actually taken or when employees (or heirs) are paid for accrued leave upon retirement or death.

Commitments under construction contracts are recognized as expenditures when earned by the contractor.

Principal and interest on general long-term obligations are not recognized until due.

All other expenditures are generally recognized under the modified accrual basis of accounting when the related fund liability is incurred.

ST. MARTIN PARISH SCHOOL BOARD
Breaux Bridge, Louisiana

Notes to Basic Financial Statements (Continued)

The proprietary fund utilizes the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded when the liability is incurred or economic asset used.

Other Financing Sources (Uses)

Transfers between funds that are not expected to be repaid (or any other types, such as capital lease transactions, sales of capital assets, debt extinguishments, long-term debt proceeds, et cetera) are accounted for as other financing sources (uses). These other financing sources (uses) are recognized at the time the underlying events occur.

Unearned Revenues

Unearned revenues arise when resources are received before the School Board has a legal claim to them, as when grant monies are received prior to the incurrence of qualifying expenditures or when tuition is received in advance of the commencement of classes.

In subsequent periods, when the School Board has a legal claim to the resources, the liability for deferred revenue is removed from the balance sheet and the revenue is recognized.

D. Assets, Deferred Outflows, Liabilities, Deferred Inflows, and Equity

Cash and interest-bearing deposits

For purposes of the Statement of Net Position, cash and interest-bearing deposits include all demand accounts, savings accounts, and certificates of deposits of the School Board. For the purpose of the proprietary fund statement of cash flows, "cash and cash equivalents" include all demand and savings accounts, and certificates of deposit or short-term investments with an original maturity of three months or less when purchased.

Investments

Under state law the School Board may deposit funds with a fiscal agent organized under the laws of the State of Louisiana, the laws of any other state in the union, or the laws of the United States. The School Board may invest in United States bonds, treasury notes and bills, government backed agency securities, or certificates and time deposits of state banks organized under Louisiana law and national banks having principal offices in Louisiana. In addition, local governments in Louisiana are authorized to invest in the Louisiana Asset Management Pool (LAMP), a nonprofit corporation formed by the State Treasurer and organized under the laws of the State of Louisiana, which operates a local government investment

ST. MARTIN PARISH SCHOOL BOARD
Breaux Bridge, Louisiana

Notes to Basic Financial Statements (Continued)

pool. At June 30, 2016, the School Board's investments in LAMP are stated at market value. See additional information in Note 3.

Interfund receivables and payables

During the course of operations, numerous transactions occur between individual funds that may result in amounts owed between funds. Those related to goods and services type transactions are classified as "due to and from other funds." Short-term interfund loans are reported as 'interfund receivables and payables.' Interfund receivables and payables as well as due to and from other funds are eliminated in the Statement of Net Position.

Receivables

Receivables consist of all revenues earned at year-end and not yet received. The majority of this balance is comprised of federal and state grants.

Inventories

The cost of inventories is recorded as expenditures when consumed rather than when purchased. Reserves are established for an amount equal to the carrying value of inventories.

Inventory of the School Lunch Special Revenue Fund consists of expendable supplies and food purchased by the School Board and commodities granted by the United States Department of Agriculture through the Louisiana Department of Agriculture and Forestry. The commodities are recorded as revenues when received; however, all inventory items are recorded as expenditures when consumed or used. All purchased inventory items are valued at the lower of cost (first-in, first-out) or market, and commodities are assigned values based on information provided by the United States Department of Agriculture.

Capital Assets

The accounting treatment over property, plant and equipment (capital assets) depends on whether they are reported in the government-wide or fund financial statements.

In the government-wide financial statements, capital assets are capitalized at historical cost, or estimated historical cost if actual is unavailable, except for donated assets, which are recorded at their estimated fair value at the date of donation. The School Board maintains a threshold level of \$5,000 or more for capitalizing capital assets.

ST. MARTIN PARISH SCHOOL BOARD
Breux Bridge, Louisiana

Notes to Basic Financial Statements (Continued)

Depreciation of all exhaustible capital assets is recorded as an allocated expense in the Statement of Activities, with accumulated depreciation reflected in the Statement of Net Position. Depreciation is provided over the assets' estimated useful life using the straight-line method of depreciation. The range of estimated useful lives by type of asset is as follows:

Buildings and improvements	20 - 40 years
Furniture and equipment	5 - 15 years

The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized.

In the fund financial statements, capital assets used in governmental fund operations are accounted for as facilities acquisition and construction expenditures of the governmental fund upon acquisition.

The School Board does not possess any material amounts of infrastructure capital assets, such as sidewalks and parking lots. Amounts expended for such items prior to June 30, 2003 were considered to be part of the cost of buildings and improvements. In the future, if such items are built or constructed, and appear to be material in cost compared to all capital assets, they will be capitalized and depreciated over their estimated useful lives as with all other depreciable capital assets.

Compensated Absences

All twelve month employees earn from ten to fifteen days of vacation leave each year, depending on their length of service with the School Board, which are not credited to the employee until the first day of the year subsequent to the year that vacation was earned. Newly hired employees earn vacation on a pro rata basis. An employee cannot accumulate more than two years of earned vacation. Any excess is lost. Employees are paid for unused vacation (subject to a two year limitation) at the time of resignation.

All twelve month employees earn from twelve to eighteen days of sick leave each year. Teachers and other nine month employees earn ten days of sick leave each year. Sick leave may be accumulated. Upon retirement or death unused accumulated sick leave of up to twenty-five days is paid to the employee or to the employee's estate at the employee's current rate of pay. Under the Louisiana Teachers' Retirement System, the total unused accumulated sick leave is used in the retirement benefit computation as earned service. Under the Louisiana School Employees' Retirement System, all unpaid sick leave, which excludes the twenty-five days paid, is used in the computation of retirement benefits as earned service. Upon resignation, all sick leave is forfeited.

ST. MARTIN PARISH SCHOOL BOARD
Breaux Bridge, Louisiana

Notes to Basic Financial Statements (Continued)

Sabbatical leave may be granted for medical reasons and for professional and cultural improvement. Any employee with a teaching certificate is entitled, subject to approval by the School Board, to one semester of sabbatical leave after three years of continuous service or two semesters of sabbatical leave after six or more years of continuous service. Due to its restrictive nature, sabbatical leave benefits are recorded as an expenditure in the period paid.

In the government-wide statements, amounts of vested or accumulated sick leave that are not expected to be liquidated with expendable available financial resources are recorded as long-term debt.

At June 30, 2016, employees of the School Board have accumulated and vested \$4,544,456 of compensated absence benefits payable. Salary related payments are not accrued since this amount is deemed to be insignificant.

Long-term debt

The accounting treatment of long-term debt depends on whether the assets are used in governmental fund operations or proprietary fund operations and whether they are reported in the government-wide or fund financial statements. Since the School Board's only Proprietary Fund is the Self-Insurance Internal Service Fund, which has no long-term debt, all School Board long-term debt is used in governmental fund operations.

All long-term debt to be repaid from governmental resources is reported as liabilities in the government-wide statements. The long-term debt consists primarily of general obligation bonds.

Long-term debt for governmental funds is not reported as liabilities in the fund financial statements. The debt proceeds are reported as other financing sources net of the applicable premium or discount and payment of principal and interest reported as expenditures. For fund financial reporting, issuance costs, even if withheld from the actual net proceeds received, are reported as debt service expenditures.

Deferred Outflows of Resources and Deferred Inflows of Resources

In some instances, the GASB requires a government to delay recognition of decreases in net position as expenditures until a future period. In other instances, governments are required to delay recognition of increases in net position as revenues until a future period. In these circumstances, deferred outflows of resources and deferred inflows of resources result from the delayed recognition of expenditures or revenues, respectively.

ST. MARTIN PARISH SCHOOL BOARD
Breaux Bridge, Louisiana

Notes to Basic Financial Statements (Continued)

Equity Classifications

In the government-wide statements, equity is classified as net position and displayed in three components:

a. Net investment in capital assets – Consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings and deferred inflows of resources that are attributable to the acquisition, construction, or improvement of those assets.

b. Restricted net position – Consists of restricted assets reduced by liabilities and deferred inflows of resources related to those assets. Constraints may be placed on the use, either by (1) external groups, such as creditors, grantors, contributors, or laws or regulations of other governments; or (2) law through constitutional provisions or enabling legislation.

c. Unrestricted net position – Net amount of the assets, deferred outflows of resources, liabilities, and deferred inflows of resources that are not included in either of the other two categories of net position.

In the fund financial statements, governmental fund equity is classified as fund balance. Fund balance is further classified as follows. Proprietary fund equity is classified the same as in the government-wide statements.

The School Board adopted GASB Statement 54 in the year ended June 30, 2009. As such, fund balances of the governmental funds are classified as follows:

Nonspendable – amounts that cannot be spent either because they are in nonspendable form or because they are legally or contractually required to be maintained intact.

Restricted – amounts that can be spent only for specific purposes because of constitutional provisions or enabling legislation or because of constraints that are externally imposed by creditors, grantors, contributors, or the laws or regulations of other governments.

Committed – amounts that can be used only for specific purposes determined by a formal action of the School Board members. The Board is the highest level of decision-making authority for the School Board office. Commitments may be established, modified, or rescinded only through ordinances or resolutions approved by Board members.

Assigned – amounts that do not meet the criteria to be classified as restricted or committed but that are intended to be used for specific purposes. Under the

ST. MARTIN PARISH SCHOOL BOARD
Breaux Bridge, Louisiana

Notes to Basic Financial Statements (Continued)

School Board's adopted policy, only Board members or the Board's finance committee may assign amounts for specific purposes.

Unassigned – all other spendable amounts.

As of June 30, 2016, fund balances are composed of the following:

	General Fund	State and Local Special Revenue Funds	Capital Projects Funds	All Other Non-Major Governmental Funds	Total Governmental Funds
Nonspendable:					
Inventories	\$ -	\$ 133,546	\$ -	\$ -	\$ 133,546
Prepaid items	700,993	-	-	-	700,993
Restricted:					
Debt retirement	-	-	-	6,321,863	6,321,863
Capital expenditures	-	-	18,587,410	-	18,587,410

When an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available, the School Board considers restricted funds to have been spent first. When an expenditure is incurred for which committed, assigned, or unassigned fund balances are available, the School Board considers amounts to have been spent first out of committed funds, then assigned funds, and finally unassigned funds, as needed, unless Board members or the finance committee has provided otherwise in its commitment or assignment actions.

ST. MARTIN PARISH SCHOOL BOARD
Breaux Bridge, Louisiana

Notes to Basic Financial Statements (Continued)

In fiscal year 2009 the School Board members established a stabilization policy. Under this policy, a portion of the fund balance of the General Fund is committed for stabilization arrangements, such as might be needed in emergency situations. The policy states that, at fiscal year end, an amount approximately equal to 20 percent of the total General Fund expenditures is committed for use in covering Board declared emergencies, including natural disasters. At June 30, 2016, \$17,408,323 of the fund balance for the General Fund was reported as committed for economic stabilization.

E. Revenue Restrictions

The School Board has various restrictions placed over certain revenue sources from state or local requirements. The primary restricted revenue sources include:

<u>Revenue Source</u>	<u>Legal Restrictions on Use</u>
Sales and use taxes	See Note 10
Ad valorem taxes	See Note 4

The School Board uses unrestricted resources only when restricted resources are fully depleted.

F. Prepaid Items

Payments made to vendors for services that will benefit periods beyond June 30, 2016 are recorded as prepaid items. The prepaid items that existed at June 30, 2016 were prepaid insurance and supplies.

G. Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures during the reporting period. Actual results could differ from those estimates.

ST. MARTIN PARISH SCHOOL BOARD
Breux Bridge, Louisiana

Notes to Basic Financial Statements (Continued)

(2) Cash and Interest-Bearing Deposits

Under state law, the School Board may deposit funds within a fiscal agent bank organized under the laws of the State of Louisiana, the laws of any other state in the Union, or the laws of the United States. The School Board may invest in direct obligations of the United States government, bonds, debentures, notes or other evidence of indebtedness issued or guaranteed by federal agencies and/or the United States government, in certificates and time deposits of state banks organized under Louisiana law and national banks having principal offices in Louisiana. At June 30, 2016, the School Board has cash and interest-bearing deposits (book balances) totaling \$24,467,265 as follows:

	Governmental Funds	Fiduciary Funds	Total
Demand deposits	\$ 8,886	\$ 24,780	\$ 33,666
Interest-bearing deposits	24,278,345	155,254	24,433,599
Amounts owed to governmental funds	2,850	(2,850)	-
Total	\$ 24,290,081	\$ 177,184	\$ 24,467,265

Custodial credit risk for deposits is the risk that in the event of the failure of a depository financial institution, the School Board's deposits may not be recovered or will not be able to recover the collateral securities that are in the possession of an outside party. These deposits are stated at cost, which approximates market. Under state law, these deposits (or the resulting bank balances) must be secured by federal deposit insurance or the pledge of securities owned by the pledging financial institution. The market value of the pledged securities plus the federal deposit insurance must at all times equal the amount on deposit with the financial institution. These securities are held in the name of the pledging financial institution in a holding or custodial bank that is mutually acceptable to both parties. Cash Funds invested at Raymond James are protected from loss and backed by the full faith and credit of the United States of America. Deposit balances (bank balances) at June 30, 2016 are secured as follows:

Bank balances	\$ 27,822,329
---------------	---------------

At June 30, 2016 the deposits are secured as follows:

Insured (FDIC)	\$ 771,191
Backed by the full faith and credit of the United States of America	15,259,429
Uninsured and collateral held by the pledging bank not in the School Board's name	11,791,709
Total	\$ 27,822,329

ST. MARTIN PARISH SCHOOL BOARD
Breaux Bridge, Louisiana

Notes to Basic Financial Statements (Continued)

(3) Investments

The School Board can invest in direct debt securities of the United States unless law expressly prohibits such an investment. The School Board's investments are categorized to give an indication of the level of risk assumed by it at year-end.

Investments consist of amounts on deposit with the Louisiana Asset Management Pool (LAMP), Raymond James, and certificates of deposit with local banks. The certificates of deposit are in the amount of \$598,091. An investment in the amount of \$41,152,017 at June 30, 2016 is deposited in LAMP, a local government investment pool, of which \$1,897,347 is attributable to the fiduciary fund, which is not presented in the statement of net position.

In accordance with GASB Codification Section I50.128, the investment in LAMP is not exposed to custodial credit risk, and is not in the three categories provided by GASB Codification Section I50.164 because the investment is in the pool of funds and thereby not evidenced by securities that exist in physical or book entry form. LAMP is administered by LAMP, Inc., a non-profit corporation organized under the laws of the State of Louisiana. Only local government entities having contracted to participate in LAMP have an investment interest in its pool of assets. The primary objective of LAMP is to provide a safe environment for the placement of public funds in short-term, high quality investments. The LAMP portfolio includes only securities and other obligations in which local governments in Louisiana are authorized to invest in accordance with LA-R.S. 33:2955.

While LAMP is not required to be a registered investment company under the Investment Company Act of 1940, its investment policies are similar to those established by Rule 2-a 7, which governs registered money market funds. The primary objective of LAMP is to provide a safe environment for the placement of public funds in short-term, high quality investments.

The LAMP portfolio includes only securities and other obligations in which local governments in Louisiana are authorized to invest. Accordingly, LAMP investments are restricted to securities issued, guaranteed, or backed by the U.S. Treasury, the U.S. government, or one of its agencies, enterprises, or instrumentalities, as well as repurchase agreements collateralized by those securities. The dollar weighted average portfolio maturity of LAMP assets is restricted to not more than 90 days, and consists of no securities with a maturity in excess of 397 days. LAMP is designed to be highly liquid to give its participants immediate access to their account balances. The investments in LAMP are stated at fair value based on quoted market rates. The fair value is determined on a weekly basis by LAMP and the value of the position in the external investment pool is the same as the net asset value of the pool shares. LAMP, Inc. is subject to the regulatory oversight of the state treasurer and the board of directors. LAMP is not registered with the SEC as an investment company.

At June 30, 2016, the School Board's investment, at cost, is \$41,152,017. The amortized cost of this investment at June 30, 2016 was also \$41,152,017.

An investment in the amount of \$4,999,700 at June 30, 2016 is deposited into Raymond James. This investment is composed of debentures issued by federal agencies and backed by the full

ST. MARTIN PARISH SCHOOL BOARD
Breux Bridge, Louisiana

Notes to Basic Financial Statements (Continued)

faith and credit of the United States of America. These investments are permitted by Louisiana Revised Statute 33:2955.

As of June 30, 2016, the investments in Raymond James were comprised of the following:

Investment	Maturities	Cost	Unrealized Gain / (Loss)	Fair Values
Federal Home Loan Bank	10/08/19-07/08/20	\$ 3,000,000	\$ (720)	\$ 2,999,280
Federal Farm Credit Bank	08/08/17-05/13/19	2,000,000	420	2,000,420
Total		<u>\$ 5,000,000</u>	<u>\$ (300)</u>	<u>\$ 4,999,700</u>

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment the greater the sensitivity of its fair value to changes in market interest rates. The School Board's investment policy does not limit investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates. Information about the exposure of the School Board's debt type investments to this risk, using the segmented time distribution model is shown above.

The custodial credit risk for investments is the risk that, in the event of the failure of the counterparty (e.g., broker-dealer) to a transaction, the School Board will not be able to recover the value of its investment or collateral securities that are in the possession of another party. At June 30, 2016, the School Board held investments of \$4,999,700 of which the underlying securities are backed by the full faith and credit of the United States of America.

(4) Ad Valorem Taxes

The following is a summary of authorized and levied ad valorem taxes:

	Millages	
	2016	2015
Parishwide taxes:		
Constitutional	2.56	2.56
Special school-		
Maintenance	8.16	8.16
Operation and maintenance	1.62	1.62
School bonds	21.50	21.50

Ad valorem taxes attach as an enforceable lien on property as of January 1 of each year. During the fiscal year ended June 30, 2016, taxes were levied by the School Board in July and were

ST. MARTIN PARISH SCHOOL BOARD
Breaux Bridge, Louisiana

Notes to Basic Financial Statements (Continued)

billed to taxpayers by the Assessor in November. Billed taxes are due by December 31, becoming delinquent on January 1 of the following year.

The taxes are based on assessed values determined by the Tax Assessor of St. Martin Parish and are collected by the Sheriff. The taxes are remitted to the School Board net of deductions for Pension Fund contributions.

(5) Receivables

Receivables at June 30, 2016 of \$2,556,457 consisted of the following:

Accrued interest	\$ 16,344
Specific stop loss receivables	321,864
Rebates	153,854
Sales taxes	1,122,633
Medicaid	443,060
Retirement	410,790
Other	87,912
	<u>\$ 2,556,457</u>

(6) Due from Other Governmental Agencies

Due from other governmental agencies of \$1,388,999 consisted primarily of amounts due from the State of Louisiana Department of Education for various appropriations and reimbursements.

ST. MARTIN PARISH SCHOOL BOARD
Breau Bridge, Louisiana

Notes to Basic Financial Statements (Continued)

(7) Capital Assets

Capital assets balances and activity for the year ended June 30, 2016 is as follows:

	Balance July 1, 2015	Additions	Deletions	Balance June 30, 2016
Capital assets not being depreciated:				
Land	\$ 1,784,022	\$ 117,500	\$ -	\$ 1,901,522
Construction in progress	12,713,914	6,252,352	(6,095,510)	12,870,756
Other capital assets:				
Building and improvements	100,054,800	9,369,808	-	109,424,608
Furniture and equipment	<u>10,027,580</u>	<u>653,235</u>	<u>(128,540)</u>	<u>10,552,275</u>
Total	<u>124,580,316</u>	<u>16,392,895</u>	<u>(6,224,050)</u>	<u>134,749,161</u>
Less accumulated depreciation:				
Buildings and improvements	42,228,886	2,149,745	-	44,378,631
Furniture and equipment	<u>5,873,818</u>	<u>585,024</u>	<u>(95,052)</u>	<u>6,363,790</u>
Total	<u>48,102,704</u>	<u>2,734,769</u>	<u>(95,052)</u>	<u>50,742,421</u>
Net capital assets	<u>\$76,477,612</u>	<u>\$13,658,126</u>	<u>\$ (6,128,998)</u>	<u>\$84,006,740</u>

At June 30, 2016, construction in progress of \$12,870,756 consists of costs incurred to date on multiple school improvement projects.

Depreciation expense was charged to governmental activities as follows:

Regular education programs	\$ 1,003,433
Special education programs	250,671
Vocational education programs	51,216
Other instructional programs	25,742
Special programs	180,045
Adult and continuing education programs	1,941
Pupil support services	175,793
Instructional staff support	112,970
General administration	72,354
School administration	157,035
Business services	39,191
Operation and maintenance of plant services	258,613
Student transportation services	172,525
Central services	39,531
Food services	192,845
Community service programs	<u>864</u>
Total depreciation expense	<u>\$ 2,734,769</u>

ST. MARTIN PARISH SCHOOL BOARD
Breux Bridge, Louisiana

Notes to Basic Financial Statements (Continued)

(8) Other Payables

At June 30, 2016, a breakdown of other payables of \$1,884,166 was as follows:

Accounts	\$ 898,240
Other liabilities	<u>985,926</u>
	<u>\$ 1,884,166</u>

(9) Changes in General Long-Term Liabilities

The following is a summary of the changes in general long-term debt for the year ended June 30, 2016:

	<u>Compensated Absences</u>	<u>Bonded Debt</u>	<u>Total</u>
Obligations payable at July 1, 2015	\$ 4,587,372	\$59,500,773	\$64,088,145
Additions	2,901,826	11,675,000	14,576,826
Bond premium	-	169,233	169,233
Less: amortization	-	(16,832)	(16,832)
Reductions	<u>(2,944,742)</u>	<u>(4,894,545)</u>	<u>(7,839,287)</u>
Obligations payable at June 30, 2016	<u>\$ 4,544,456</u>	<u>\$66,433,629</u>	<u>\$70,978,085</u>

Compensated Absences

Compensated absences payable consists of the portion of accumulated sick leave and vacation leave of the governmental funds that is not expected to require current resources. The General Fund and Special Revenue Funds have historically been used to pay compensated absences (when applicable).

ST. MARTIN PARISH SCHOOL BOARD
Breau Bridge, Louisiana

Notes to Basic Financial Statements (Continued)

Bonded Debt

School Board bonds outstanding at June 30, 2016 consist of parishwide general obligation school bonds and qualified zone academy bonds as follows:

Date of Issue	Original Issue	Interest Rates	Final Payment Date	Interest to Maturity	Principal Outstanding
Parishwide general obligation school refunding bonds; March 1, 2005	\$ 5,490,000	3.00 - 4.50	03/01/17	29,925	665,000
Parishwide general obligation school refunding bonds; March 1, 2006	8,080,000	4.00 - 5.00	03/01/20	158,600	2,210,000
General obligation school bonds; July 1, 2009	10,000,000	4.00 - 6.00	03/01/29	2,527,552	7,620,000
General obligation school bonds; March 1, 2010	10,000,000	2.00 - 4.125	03/01/30	2,671,656	7,960,000
General obligation school bonds; March 1, 2011	10,000,000	4.00 - 5.00	03/01/31	2,750,000	7,500,000
Parishwide general obligation school refunding bonds; March 30, 2012	2,580,000	2.350	03/01/23	183,065	1,885,000
General obligation school bonds; August 22, 2013	5,000,000	2.00 - 4.25	03/01/33	1,689,875	4,480,000
General obligation school bonds; March 6, 2014	12,000,000	3.00 - 4.00	03/01/34	4,168,640	11,185,000
General obligation school bonds; March 12, 2015	11,675,000	3.00 - 3.25	03/01/35	3,861,031	11,285,000
General obligation school bonds; September 24, 2015	11,675,000	2.00 - 3.50	03/01/35	4,327,300	11,285,000

ST. MARTIN PARISH SCHOOL BOARD
Breaux Bridge, Louisiana

Notes to Basic Financial Statements (Continued)

All principal and interest requirements on the parishwide general obligation school bonds are funded in accordance with Louisiana law by an annual ad valorem tax levy on taxable property within the parish. At June 30, 2016, the School Board has accumulated \$6,269,972 in the debt service funds for future debt requirements. The bonds are due as follows:

Year Ending June 30	Principal Payments	Amortization	Interest Payments	Total
2017	\$ 4,585,000	\$ 18,948	\$ 2,404,476	\$ 7,008,424
2018	4,085,000	18,948	2,245,944	6,349,892
2019	3,380,000	18,948	2,106,231	5,505,179
2020	3,505,000	18,948	1,979,871	5,503,819
2021	3,465,000	18,948	1,847,389	5,331,337
2022-2026	18,455,000	94,740	7,290,762	25,840,502
2027-2031	19,180,000	94,738	3,719,204	22,993,942
2032-2035	9,420,000	74,411	773,767	10,268,178
	<u>\$ 66,075,000</u>	<u>\$ 358,629</u>	<u>\$ 22,367,644</u>	<u>\$ 88,801,273</u>

(10) Sales and Use Taxes

The School Board is authorized and has levied the following sales and use taxes:

1. March 20, 1965 (1%)

After paying collection and administration costs, the tax is to be used for salaries of teachers and for the expenses of operating schools, including payment of other personnel in addition to teachers. This tax is maintained in the Sales Tax Fund, which is a part of the State and Local Special Revenue Funds.

2. July 21, 1990 (1%)

The tax, as originally passed, was to be used for the payment of all debt service requirements on all outstanding bonds payable from the pledge of said tax, with the remainder to be used for the purpose of paying salaries and related benefits for professional and paraprofessional employees on a seven to five ratio. There are currently no bonds outstanding for which this tax is pledged. This tax was accounted for in a Sales Tax Fund which was part of the State and Local Special Revenue Funds.

ST. MARTIN PARISH SCHOOL BOARD
Breux Bridge, Louisiana

Notes to Basic Financial Statements (Continued)

In May 2013, an election was held to continue to levy and collect this tax. At that time, the tax was also rededicated for any lawful purpose of the School Board. This rededication was made retroactively. As a result of the rededication, this tax is now accounted for in the General Fund.

(11) Changes in Agency Deposits Due Others

A summary of changes in agency fund deposits due others follows:

	School Activity Fund	Sales Tax Fund	Total
Balance at July 1, 2015	\$1,171,691	\$ -	\$ 1,171,691
Additions	2,051,305	28,051,512	30,102,817
Reductions	<u>(1,973,869)</u>	<u>(28,051,512)</u>	<u>(30,025,381)</u>
Balance at June 30, 2016	<u>\$1,249,127</u>	<u>\$ -</u>	<u>\$ 1,249,127</u>

(12) Risk Management

The School Board is exposed to risks of loss in the areas of health care, workers' compensation, general and auto liability and property hazards. Health care and workers' compensation risks are handled through a self-insurance plan as described below. The other risks are handled by purchasing commercial insurance. There have been no significant reductions in these insurance coverages during the current fiscal year, nor have settlements exceeded insurance coverage for the current or prior two fiscal years.

A. Workers' Compensation

The School Board has established a limited risk management program for workers' compensation. The School Board hired LoCA as administrator for this program. During fiscal year 2016, a total of \$763,029 was incurred in benefits and administrative costs. The School Board purchases commercial insurance for individual claims in excess of \$350,000. Incurred but not paid claims have been accrued as a liability in the Workers Compensation Fund (internal service fund).

B. Group Self-Insurance

The School Board also established a limited risk management program for group hospitalization insurance. This plan provides employee health benefits up to a

ST. MARTIN PARISH SCHOOL BOARD
Breux Bridge, Louisiana

Notes to Basic Financial Statements (Continued)

\$1,000,000 lifetime maximum with an annual \$10,000 restoration. The School Board purchases commercial insurance for individual claims in excess of \$175,000.

The self-insurance activity is reported in the General Fund. Both the General and Special Revenue Funds of the School Board participate in the program and make contributions based on amounts needed to pay prior and current year claims. The claims liability of \$1,000,000 reported in the general fund at June 30, 2016, is based on the loss that is probable at the date of the financial statements and the amount of the loss that can be reasonably estimated. The School Board currently does not discount its claims liabilities.

C. Reconciliation of Claims Liabilities

Changes in the claims liability amounts for the risk management programs are as follows:

	Balance at Beginning of Fiscal Year	Claims and Changes in Estimates	Benefit Payments and Claims	Balance at Fiscal Year-End
Workers' compensation:				
2013-2014	690,053	616,274	369,608	936,719
2014-2015	936,719	202,285	394,412	744,592
2015-2016	744,592	409,216	341,603	812,205
Group hospitalization:				
2013-2014	1,500,000	12,739,740	12,739,740	1,500,000
2014-2015	1,500,000	13,137,141	13,387,141	1,250,000
2015-2016	1,250,000	12,995,447	13,245,447	1,000,000

Claims payable of \$812,205 for workers' compensation at June 30, 2016 was obtained from information provided by the third party administrator.

Claims payable for group hospitalization of \$1,000,000 at June 30, 2016 was determined as follows:

1. Claims incurred on or prior to June 30, 2016 and paid between July 1, and September 30, 2016	\$ 522,793
2. Provision for claims incurred but not reported	<u>477,207</u>
Total claims payable	<u>\$1,000,000</u>

The provision for claims incurred but not reported of \$477,207 was calculated utilizing historical information.

ST. MARTIN PARISH SCHOOL BOARD
Breux Bridge, Louisiana

Notes to Basic Financial Statements (Continued)

(13) Compensation of Board Members

A detail of the compensation paid to individual board members for the year ended June 30, 2016 follows:

James Blanchard	\$ 9,600
Burton Dupuis	9,600
Aaron Flegeance	9,600
Russell Foti	9,600
Steve Fuselier	9,600
Mark Hebert	10,800
Floyd Knott	9,600
Richard Potier	9,600
Frederic Stelly	9,600
Wanda Vital	<u>9,600</u>
	<u>\$ 97,200</u>

(14) Commitments and Contingencies

A. Contingent Liabilities

At June 30, 2016, the School Board is involved in several lawsuits. In the opinion of management and/or legal counsel for the School Board, resolution of these lawsuits will not involve any material liability (after meeting the insurance deductible of \$25,000 per occurrence) to the School Board in excess of insurance coverage. Total liability for lawsuits accrued at June 30, 2016 is \$536,360 and is included in claims payable on the statement of net position.

B. Grant Audit

Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time although the School Board expects such amounts, if any, to be immaterial.

C. Commitments

The School Board has construction commitments with respect to unfinished projects of approximately \$3,081,476.

ST. MARTIN PARISH SCHOOL BOARD
Breux Bridge, Louisiana

Notes to Basic Financial Statements (Continued)

(15) Interfund Transactions

A. Interfund receivables and payables, by fund, at June 30, 2016 are as follows:

	Receivables	Payables
Major Funds		
General Fund	\$ 2,198,215	\$ -
State and Local Special Revenue Funds	-	43,759
Capital Projects Funds	5,103,672	6,025,168
Total major funds	7,301,887	6,068,927
Nonmajor governmental funds	-	1,278,919
Internal service funds	45,959	-
Total	\$ 7,347,846	\$ 7,347,846

The amounts shown are primarily for reimbursements owed for expenditures paid by one fund on behalf of another fund. All balances should be repaid within one year.

B. Transfers consisted of the following at June 30, 2016:

	Transfers In	Transfers Out
Major Funds		
General Fund	\$ 17,032,128	\$ 10,039,986
State and Local Special Revenue Funds	1,120,000	8,044,973
Capital Projects Funds	399,000	-
Nonmajor governmental funds	-	466,169
Total	\$ 18,551,128	\$ 18,551,128

Transfers are used to (a) move revenues from the fund that statute or budget requires to collect them to the fund that statute or budget requires to expend them and to (b) use unrestricted revenues collected in the general fund to finance various programs accounted for in other funds in accordance with budgetary authorizations.

(16) Post-Retirement Health Care and Life Insurance Benefits

From an accrual accounting perspective, the cost of postemployment healthcare benefits should be associated with the periods in which the cost occurs, rather than in the future year when it will be paid. The School Board recognizes the cost of postemployment

ST. MARTIN PARISH SCHOOL BOARD
Breux Bridge, Louisiana

Notes to Basic Financial Statements (Continued)

healthcare in the year when employee services are received, reports the accumulated liability from prior years, and provides information useful in assessing potential demands on the School Board's future cash flows. Because the School Board adopted the requirements of GASB Statement No. 45 prospectively, recognition of the liability accumulated from prior years will be phased in over 30 years, commencing with the 2009 liability.

Plan Description: In accordance with the Employer Health and Welfare Benefit Plan established in November 1986, the School Board provides certain continuing health care and life insurance benefits for its retired employees. The plan is a single-employer defined benefit health care plan administered by the School Board. The School Board has the authority to establish and amend the benefit provisions of the plan. The plan does not issue a publicly available financial report.

Funding Policy: The monthly premiums of these benefits for retirees and similar benefits for active employees are paid jointly by the employee (approximately 36%) and the School Board (approximately 64%). The School Board recognizes the cost of providing these benefits (the School Board's portion of premiums) as an expenditure when the monthly premiums are due. The benefits are financed on a pay-as-you-go basis.

Annual OPEB Cost: The School Board's annual other postemployment benefit (OPEB) cost is calculated based on the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement No. 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal costs each year and amortize any unfunded actuarial liabilities over a period not to exceed thirty years. The School Board utilizes the level-dollar amortization method to amortize the unfunded actuarial accrued liability.

The following table shows the components of the School Board's annual OPEB cost for the year, the amount actually contributed to the plan, and changes in the district's net OPEB obligation:

Annual required contribution	\$ 7,037,289
Interest on net OPEB obligation	1,543,835
Adjustment to annual required contribution	<u>(2,232,003)</u>
Annual OPEB cost (expense)	6,349,121
Contributions made	<u>(3,854,987)</u>
Increase in net OPEB obligation	2,494,134
Net OPEB obligation - beginning of year	<u>38,595,865</u>
Net OPEB obligation - end of year	<u>\$ 41,089,999</u>

ST. MARTIN PARISH SCHOOL BOARD
Breaux Bridge, Louisiana

Notes to Basic Financial Statements (Continued)

The School Board's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation for 2016 is as follows:

Fiscal Year Ended	Annual OPEB Cost	Percentage of Annual OPEB Cost Contributed	Net OPEB Obligation
6/30/2014	\$ 12,097,958	43.9%	\$ 36,041,293
6/30/2015	\$ 6,124,004	58.3%	\$ 38,595,865
6/30/2016	\$ 6,349,121	60.7%	\$ 41,089,999

Fiscal year 2009 was the year of implementation of GASB Statement No. 45 and the School Board has elected to implement prospectively. Therefore, three-year trend information is presented.

Funded Status and Funding Progress: The funded status of the plan as of June 30, 2016, was as follows:

Actuarial accrued liability (AAL)	\$ 89,824,432
Actuarial valuation of plan assets	<u>-</u>
Unfunded actuarial accrued liability (UAAL)	<u>\$ 89,824,432</u>
Funded ratio (actuarial value of plan assets/AAL)	0%
Covered payroll (active plan members)	45,156,160
UAAL as a percentage of covered payroll	198.9%

Actuarial valuations for an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Actuarially determined amounts are subject to continuous revision as actual results are compared to past expectations and new estimates about the future are formulated. Although the valuation results are based on values which the School Board's actuarial consultant believes are reasonable assumptions, the valuation results reflect a long-term perspective and, as such, are merely an estimate of what future costs may actually be. Deviations in any of several factors, such as future interest rates, medical cost inflation, Medicare coverage, and changes in marital status, could result in actual costs being less or greater than estimated.

The schedule of funding progress presented as required supplementary information following the notes to the financial statements, presents multiyear trend information that shows whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

ST. MARTIN PARISH SCHOOL BOARD
Breaux Bridge, Louisiana

Notes to Basic Financial Statements (Continued)

Actuarial Methods and Assumptions: Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

In the July 1, 2014 actuarial valuation the projected unit credit cost method was used. The significant actuarial assumptions used in the valuation of the plan are as follows:

1. Investment return of 4.0% per annum, compounded annually.
2. The inflation rate is 2.5%.
3. The initial trend rate used in the calculations was 8.0%. The ultimate trend rate is 5.0%. The time period between the initial rate and the ultimate rate is 10 years.

(18) Pension Plans / GASB 68

Substantially all employees of the School Board are members of one of the following statewide retirement systems: Teachers' Retirement System of Louisiana (TRSL) or Louisiana School Employees' Retirement System (LSERS). These systems are cost-sharing, multiple-employer defined benefit pension plans administered by separate boards of trustees. Pertinent information relative to each plan follows:

A. Teachers' Retirement System of Louisiana (TRSL)

The St. Martin Parish School Board participates in the Teachers' Retirement System of Louisiana (TRSL or System). The System is the administrator of a cost-sharing, multiple-employer defined benefit pension plan established and provided for within Title 11, Chapter

ST. MARTIN PARISH SCHOOL BOARD
Breaux Bridge, Louisiana

Notes to Basic Financial Statements (Continued)

2, of the Louisiana Revised Statutes to provide benefits to members and their dependents at retirement or in the event of death, disability, or termination of employment.

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions and pension expense, information about the fiduciary net position of the Teachers' Retirement System of Louisiana and additions to/deductions from the System's fiduciary net position have been determined on the same basis as they are reported by the System. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Summary of Significant Accounting Policies

The System prepares its employer pension schedules in accordance with the Governmental Accounting Statement No. 68, *Accounting and Financial Reporting for Pensions - an amendment of GASB Statement No. 27*. GASB Statement No. 68 established standards for measuring and recognizing liabilities, deferred outflows of resources, deferred inflows of resources, and expenses/expenditures. It provides methods and assumptions that should be used to project benefit payments; discount projected benefit payments to their actuarial present value; and attribute that present value to periods of employee service. It also provides methods to calculate participating employer's proportionate share of net pension liability, deferred inflows, deferred outflows, pension expense, and amortization periods for deferred inflows and deferred outflows.

Basis of Accounting

The System's employer pension schedules were prepared using the accrual basis of accounting. Member and employer contributions are recognized when due, pursuant to formal commitments as well as statutory or contractual requirements. The member's earnable compensation is attributed to the employer(s) for which the member is employed as of June 30, 2015.

System Employees

The System is not allocated a proportionate share of the net pension liability related to its employees. The net pension liability attributed to the System's employees is allocated to the remaining employers based on their respective employer allocation percentage.

Plan Fiduciary Net Position

Plan fiduciary net position is a significant component of the System's collective net pension liability. The System's plan fiduciary net position was determined using the accrual basis of accounting. The System's assets, liabilities, revenues, and expenses were recorded with the use of estimates and assumptions in conformity with accounting principles generally accepted in the United States of America. Such estimates primarily relate to unsettled transactions and events as of

ST. MARTIN PARISH SCHOOL BOARD
Breaux Bridge, Louisiana

Notes to Basic Financial Statements (Continued)

the date of the financial statements and estimates over the determination of the fair market value of the System's investments. Accordingly, actual results may differ from estimated amounts.

Plan Description

TRSL was established for the purpose of providing retirement allowances and other benefits as stated under the provisions of La. R.S. 11:700-999, as amended, for eligible teachers, employees, and their beneficiaries. The projection of benefit payments in the calculation of the total pension liability includes all benefits to be provided to current active and inactive employees through the System in accordance with the benefit terms and any additional legal agreements to provide benefits that are in force at the measurement date. The System has issued a stand-alone audit report on its financial statements. Access to these reports can be found on the Louisiana Legislative Auditor's website, www.la.gov and the System's website, www.trsl.org.

The following is a description of the plan and its benefits, and is provided for general information purposes only. Participants should refer to the appropriate statutes for more complete information.

Retirement Benefits

Service retirement benefits are payable to members who have terminated covered employment and meet both age and service eligibility requirements.

Normal Retirement

Regular Plan – Members whose first employment makes them eligible for membership in a Louisiana state retirement system on or after July 1, 2015, may retire with a 2.5% benefit factor after attaining age sixty-two with at least 5 years of service credit and are eligible for an actuarially reduced benefit with 20 years of service at any age. Members hired between January 1, 2011 and June 30, 2015 may retire with a 2.5% benefit factor after attaining age sixty with at least 5 years of service credit and are eligible for an actuarially reduced benefit with 20 years of service at any age. Members hired between July 1, 1999 and December 31, 2010, are eligible for a 2.5% benefit factor at the earliest of age 60 with 5 years of service, age 55 with 25 years of service, or at any age with 30 years of service. Members may retire with an actuarially reduced benefit with 20 years of service at any age. If hired before July 1, 1999, members are eligible for a 2% benefit factor at the earliest of age 60 with 5 years of service, or at any age with 20 years of service and are eligible for a 2.5% benefit factor at the earliest of age 65 with 20 years of service, age 55 with 25 years of service, or at any age with 30 years of service.

ST. MARTIN PARISH SCHOOL BOARD
Breaux Bridge, Louisiana

Notes to Basic Financial Statements (Continued)

Plan A – Members can retire with a 3.0% benefit factor at age 55 with 25 years of service, age 60 with five years of service, or any age with 30 years of service. Plan A is closed to new entrants.

Plan B – Members can retire with a 2.0% benefit factor at age 55 with 30 years of service, or age 60 (first employed between January 1, 2011 – June 30, 2015) with 5 years of service, or age 62 (first employed after July 1, 2015) with 5 years of service, or an actuarially reduced benefit with 20 years of service at any age.

Benefit Formula

For all plans, retirement benefits are based on a formula which multiplies the final average compensation by the applicable benefit factor, and by the years of creditable service. For Regular Plan and Lunch Plan B members whose first employment makes them eligible for membership in a Louisiana state retirement system on or after January 1, 2011, final average compensation is defined as the highest average 60-month period. For all other members, final average compensation is defined as the highest average 36-month period.

Payment Options

A retiring member is entitled to receive the maximum monthly benefit payable until the member's death. In lieu of the maximum monthly benefit, the member can elect to receive a reduced monthly benefit payable in the form of a Joint and Survivor Option, or a monthly benefit (maximum or reduced Joint and Survivor Option) with a lump sum that can't exceed 36 months of the members' maximum monthly benefit amount.

Effective July 1, 2009, members can make an irrevocable election at retirement to receive an actuarially reduced monthly benefit which increases 2.5% annually, beginning on the first retirement anniversary date, but not before age 55 or before the retiree would have attained age 55 in the case of a surviving spouse. This option can be chosen in combination with the above options.

Deferred Retirement Option Program (DROP)

In lieu of terminating employment and accepting a service retirement, an eligible member can begin participation in the Deferred Retirement Option Program (DROP) on the first retirement eligibility date for a period not to exceed 3 years. A member has a 60 day window from his first eligible date to participate in the program in order to participate for the maximum number of years. Delayed participation reduces the three year maximum participation period. During

ST. MARTIN PARISH SCHOOL BOARD
Breux Bridge, Louisiana

Notes to Basic Financial Statements (Continued)

participation, benefits otherwise payable are fixed, and deposited in an individual DROP account.

Upon termination of DROP participation, the member can continue employment and earn additional benefit accruals to be added to the fixed pre-DROP benefit.

Upon termination of employment, the member is entitled to the fixed benefit, an additional benefit based on post-DROP service (if any), and the individual DROP account balance which can be paid in a lump sum or as an additional annuity based upon the account balance.

Disability Retirement Benefits

Active members whose first employment makes them eligible for membership in a Louisiana state retirement system before January 1, 2011, and who have five or more years of service credit are eligible for disability retirement benefits if certified by the State Medical Disability Board (SMDB) to be disabled from performing their job. All other members must have at least 10 years of service to be eligible for a disability benefit. Calculation of the disability benefit as well as the availability of a minor child benefit is determined by the plan to which the member belongs and the date on which the member's first employment made them eligible for membership in a Louisiana state retirement system.

Survivor Benefits

A surviving spouse with minor children of an active member with five years of creditable service (2 years immediately prior to death) or 20 years of creditable service is entitled to a benefit equal to the greater of (a) \$600 per month, or (b) 50% of the member's benefit calculated at the 2.5% accrual rate for all creditable service. When a minor child(ren) is no longer eligible to receive survivor benefits, the spouse's benefit reverts to a survivor benefit in accordance with the provisions for a surviving spouse with no minor child(ren). Benefits for the minor child(ren) cease when he/she is no longer eligible.

Each minor child (maximum of 2) shall receive an amount equal to the greater of (a) 50% of the spouse's benefit, or (b) \$300 (up to 2 eligible children). Benefits to minors cease at attainment of age 21, marriage, or age 23 if enrolled in an approved institution of higher education.

A surviving spouse without minor children of an active member with 10 years of creditable service (2 years immediately prior to death) or 20 years of creditable service is entitled to a benefit equal to the greater of (a) \$600 per month, or (b) the option 2 equivalent of the benefit calculated at the 2.5% benefit factor for all creditable service.

ST. MARTIN PARISH SCHOOL BOARD
Breaux Bridge, Louisiana

Notes to Basic Financial Statements (Continued)

Permanent Benefit Increases/Cost-of-Living Adjustments

As fully described in Title 11 of the Louisiana Revised Statutes, the System allows for the payment of ad hoc permanent benefit increases, also known as cost-of-living adjustments (COLAs) that are funded through investment earnings when recommended by the Board of Trustees and approved by the State Legislature.

Optional Retirement Plan (ORP)

The Optional Retirement Plan (ORP) was established for academic employees of public institutions of higher education who are eligible for membership in TRSL. This plan was designed to provide certain academic and unclassified employees of public institutions of higher education an optional method of funding for their retirement.

The ORP is a defined contribution pension plan which provides for portability of assets and full and immediate vesting of all contributions submitted on behalf of the affected employees to the approved providers. These providers are selected by the TRSL Board of Trustees. Monthly employer and employee contributions are invested as directed by the employee to provide the employee with future retirement benefits. The amount of these benefits is entirely dependent upon the total contributions and investment returns accumulated during the employee's working lifetime. Employees in eligible positions of higher education can make an irrevocable election to participate in the ORP rather than TRSL and purchase annuity contracts – fixed, variable, or both – for benefits payable at retirement.

Employer Contributions

The employer contribution rate is established annually under La. R.S. 11:101 – 11:104 by the Public Retirement Systems' Actuarial Committee (PRSAC), taking into consideration the recommendation of the System's actuary. Each sub plan pays a separate actuarially determined employer contribution rate. However, all assets of TRSL are used for the payment of benefits for all classes of members, regardless of their plan. The employer contributed \$10,438,827 during the fiscal year ending June 30, 2016.

The normal cost portion of each plan's employer contribution rate varies based upon that plan's benefits, member demographics, and the rate contributed by employees. The Unfunded Accrued Liability (UAL) contribution rate is determined in aggregate for all plans. The UAL resulting from legislation specific to a plan or group of plans will be allocated entirely to that plan or those plans.

For ORP, only the UAL portion of the employer contribution is retained by the plan. Therefore, only the UAL projected rates were used in the projection of future contributions in determining an employer's proportionate share.

ST. MARTIN PARISH SCHOOL BOARD
Breux Bridge, Louisiana

Notes to Basic Financial Statements (Continued)

Rates for the year ended June 30, 2015, are as follows:

TRSL Sub Plan	Total Employer Contribution 2015
K-12 Regular Plan	28.0%
Higher Ed Regular Plan	26.4%
Plan A	33.1%
Plan B	30.1%
ORP	Employer UAL
2015	22.7%

NOTE: In accordance with state statute, the System receives ad valorem taxes and state revenue sharing funds. These additional sources of income are used as employer contributions and are considered support from non-employer contributing entities, but are not considered special funding situations.

Schedule of Employer Allocations

The schedule of employer allocations reports the employer contributions in addition to the employer allocation percentage. The required projected employer contributions are the basis used to determine the proportionate relationship of each employer to all employers of the System. The employer's proportion was determined on a basis that is consistent with the manner in which contributions to the pension plan are determined. The allocation percentages were used in calculating each employer's proportionate share of the pension amounts.

The allocation method used in determining each employer's proportion was based on the employer's projected contribution effort to the plan for 2016 as compared to the total of all employers' projected contribution effort to the plan for 2016. The employers' projected contribution effort was actuarially determined by the System's actuary, Foster and Foster Actuaries & Consultants.

The employers' projected contribution effort was calculated by multiplying the eligible annual compensation of active members in the System on June 30, 2015, by the 2016 employers' actuarially required contribution rates. Eligible compensation reported during the fiscal year was the basis for the computations. If reported compensation was less than a full year at June 30, the compensation was annualized to project a full year. Most employees of TRSL are 9 month employees and receive a full year credit for working 9 months. Compensation reported over the 9 month period represents a full year and does not need to be annualized. Also, some members may be employed full-time with one employer and part time with a second employer; these are referred to as primary and secondary employers respectively. Salaries for secondary employers were added to the employers' total payroll

ST. MARTIN PARISH SCHOOL BOARD
Breaux Bridge, Louisiana

Notes to Basic Financial Statements (Continued)

without annualizing. For ORP members, their earnings for the fiscal year were included in the employers' totals with no adjustments.

TRSL Sub Plan	Total Employer Contribution 2016
K-12 Regular Plan	26.3%
Higher Ed Regular Plan	25.3%
Plan A	31.3%
Plan B	28.8%
ORP	Employer UAL
2016	22.0%

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2016, the School Board reported a liability of \$90,094,407 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2015 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The School Board's proportion of the net pension liability was based on a projection of the School Board's long-term share of contributions to the pension plan relative to the projected contributions of all participating employers, actuarially determined. At June 30, 2015, the School Board's proportion was .83791% which was an increase of .03272% from its proportion measured as of June 30, 2014.

For the year ended June 30, 2016, the School Board recognized pension expense of \$6,236,327 plus employer's amortization of change in proportionate share and differences between employer contributions and proportionate share of contributions, \$283,870.

ST. MARTIN PARISH SCHOOL BOARD
Breux Bridge, Louisiana

Notes to Basic Financial Statements (Continued)

At June 30, 2016, the School Board reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experiences	\$ -	\$ 1,033,877
Changes of assumptions	-	-
Net difference between projected and actual earnings on pension plan investments	-	1,988,262
Change in proportion and differences between employer contributions and proportionate share of contributions	984,443	-
Employer contributions subsequent to the measurement date	10,438,827	-
Total	\$ 11,423,270	\$ 3,022,139

Deferred outflows of resources of \$10,438,270 related to pensions resulting from the School Board's contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2017. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pension will be recognized in pension expense as follows:

<u>Fiscal Year Ended</u>	
6/30/2017	\$ (1,205,956)
6/30/2018	(1,205,956)
6/30/2019	(1,205,956)
6/30/2020	1,580,172

Contributions – Proportionate Share

Differences between contributions remitted to the System and the employer's proportionate share are recognized in pension expense using the straight-line amortization method over a closed period equal to the average of the expected remaining service lives of all employees that are provided with a pension through the pension plan. The resulting deferred inflow/outflow and amortization is not reflected in the Schedule of Pension Amounts by Employer due to differences that could arise between contributions reported by the System and contributions reported by the participating employer.

ST. MARTIN PARISH SCHOOL BOARD
Breux Bridge, Louisiana

Notes to Basic Financial Statements (Continued)

Actuarial Methods and Assumptions:

The net pension liability was measured as the portion of the present value of projected benefit payments to be provided through the pension plan to current active and inactive employees that is attributed to those employees' past periods of service, less the amount of the pension plan's fiduciary net position.

A summary of the actuarial methods and assumptions used in determining the total pension liability as of June 30, 2015 are as follows:

Valuation Date	June 30, 2015
Actuarial Cost Method	Entry Age Normal
Actuarial Assumptions:	
Expected Remaining Service Lives	2015 - 5 years 2014 - 5 years
Investment Rate of Return	7.75% net of investment expense
Inflation Rate	2.5% per annum
Projected Salary Increases	3.50% - 10.0% varies depending on duration of service
Cost-of-Living Adjustments	None
Mortality	Mortality rates were projected based on the RP-2000 Mortality Table with projection to 2025 using Scale AA.
Termination and Disability	Termination, disability, and retirement assumptions were projected based on a five year (2008-2012) experience study of the System's members.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expenses and inflation) are developed for each major asset class. These ranges are combined to produce the long term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation of 2.5% and an adjustment for the effect of rebalancing/diversification. Best estimates of arithmetic real rates of return for each major asset class included in the pension plan's target asset allocation as of June 30, 2015 are summarized in the following table:

ST. MARTIN PARISH SCHOOL BOARD
Breux Bridge, Louisiana

Notes to Basic Financial Statements (Continued)

Asset Class	Long Term Expected Real Rate of Return
Domestic Equity	4.71%
International Equity	5.69%
Domestic Fixed Income	2.04%
International Fixed Income	2.80%
Alternative Investments	5.94%

The discount rate used to measure the total pension liability was 7.75%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rates and that contributions from participating employers will be made at the actuarially determined rates approved by PRSAC taking into consideration the recommendation of the System's actuary. Based on those assumptions, the System's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity to Changes in Discount Rate

The following presents the net pension liability of the participating employers calculated using the discount rate of 7.75%, as well as what the employers' net pension liability would be if it were calculated using a discount rate that is one percentage point lower or one percentage point higher than the current rate.

	Changes in Discount Rate		
	1%	Current	1%
	Decrease	Discount Rate	Increase
	6.75%	7.75%	8.75%
Employer's proportionate share of net pension liability	<u>\$ 114,002,170</u>	<u>\$ 90,094,407</u>	<u>\$ 69,760,393</u>

Change in Net Pension Liability:

The changes in the net pension liability for the year ended June 30, 2015, were recognized as pension expense or benefit in the current reporting period except as follows:

1. Differences between expected and actual experience: Differences between expected and actual experience with regard to economic or demographic factors in the measurement of the total pension liability were recognized in pension expense using the straight-line amortization method over a closed period equal to the average of the expected remaining service lives of all employees that are provided with pensions through the pension plan. The

ST. MARTIN PARISH SCHOOL BOARD
Breau Bridge, Louisiana

Notes to Basic Financial Statements (Continued)

difference between expected and actual experience resulted in a deferred inflow of resources in the amount of \$1,033,877 for the year ended June 30, 2015.

2. Differences between projected and actual investment earnings: Differences between projected and actual investment earnings on pension plan investments were recognized in pension expense using the straight-line amortization method over a closed five-year period.
3. Changes in assumptions or other inputs: Changes of assumptions about future economic or demographic factors or of other inputs were recognized in pension expense using the straight-line amortization method over a closed period equal to the average of the expected remaining service lives of all employees that are provided with pensions through the pension plan. Changes of assumptions or other inputs resulted in a deferred inflow of resources in the amount of \$1,988,262 for the year ended June 30, 2015.
4. Change in proportion: Changes in the employer's proportionate share of the collective net pension liability and collective deferred outflows of resources and deferred inflows of resources since the prior measurement date are recognized in employer's pension expense using the straight-line amortization method over a closed period equal to the average of the expected remaining service lives of all employees that are provided pensions through the pension plan. The change in proportion resulted in a deferred outflow of \$984,443 for the year ended June 30, 2015.

Estimates

The process of preparing the schedule of employer allocations and schedules of pension amounts in conformity with accounting principles generally accepted in the United States of America requires the use of estimates and assumptions regarding certain types of assets, liabilities, revenues, and expenses. Accordingly, actual results may differ from estimated amounts.

B. State of Louisiana School Employees' Retirement System (LSERS)

The St. Martin Parish School Board participates in the State of Louisiana School Employees' Retirement System (System). The State of Louisiana School Employees' Retirement System (System), a component unit of the State of Louisiana was established and provided for by R.S. 11:1001 of the Louisiana Revised Statutes (LRS) to provide retirement, disability and survivor benefits to all eligible school bus drivers, school janitors, school custodians, school maintenance employees, school bus aides, or other regular school employees who actually work on a school bus helping with the transportation of school children. For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the State of Louisiana School Employees' Retirement

ST. MARTIN PARISH SCHOOL BOARD
Breaux Bridge, Louisiana

Notes to Basic Financial Statements (Continued)

System and additions to/deductions from the System's fiduciary net position have been determined on the same basis as they are reported in the System. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit term.

Summary of Significant Accounting Policies

The School Employees' Retirement System prepares its employer pension schedules in accordance with Governmental Accounting Statement No. 68 – *Accounting and Financial Reporting for Pensions - an amendment of GASB Statement No. 27*. GASB Statement No. 68 establishes standards for measuring and recognizing liabilities, deferred outflows of resources, deferred inflows of resources and expenses/expenditures. It provides methods and assumptions that should be used to project benefit payments, discount projected benefit payments to their actuarial present value and attribute that present value to periods of employee service. It also provides methods to calculate participating employer's proportionate share of net pension liability, deferred inflows, deferred outflows, pension expense, and amortization periods for deferred inflows and deferred outflows.

Basis of Accounting

The System's employer pension schedules are prepared using the accrual basis of accounting. Members' earnable compensation, for which the employer allocations are based, is recognized in the period in which the employee is compensated for services performed. The member's earnable compensation is attributed to the employer for which the member is employees as of June 30, 2015.

System Employees

The System is not allocated a proportionate share of the net pension liability related to its employees. The net pension liability attributed to the System's employees is allocated to the remaining employers based on their respective employer allocation percentage.

Plan Fiduciary Net Position

Plan fiduciary net position is a significant component of the System's collective net pension liability. The System's fiduciary net position was determined using the accrual basis of accounting. The System's assets, liabilities, revenues and expenses were recorded with the use of estimates and assumptions in conformity with accounting principles generally accepted in the United States of America. Such estimates primarily related to unsettled transactions and events as of the date of the financial statements and estimates over the determination of the fair market value of the System's investments. Accordingly, actual results may differ from estimated amounts.

Notes to Basic Financial Statements (Continued)

Plan Description

The State of Louisiana School Employees' Retirement System is the administrator of a cost-sharing multiple-employer defined benefit pension plan and is a component unit of the State of Louisiana and is included in the State's CAFR as a Pension Trust Fund. The System was established and provided for by R.S.11:1001 of the Louisiana Revised Statutes (LRS). The accompanying statements present information only as to transactions of the System as authorized by Louisiana Revised Statutes. The System has issued a stand-alone audit report on its financial statements. Access to the report can be found on the Office of Louisiana Legislative Auditor's official website: www.la.gov.

The following is a description of the Plan and its benefits and is provided for general information purposes only. Participants should refer to the appropriate statutes for more complete information.

Eligibility Requirements

Membership is mandatory for all persons employed by a Louisiana Parish or City School Board or by the Lafourche Special Education District #1 who work more than twenty hours per week or for part-time employees who have ten years of creditable service in the System as a school bus driver, school janitor, school custodian, school maintenance employee, school bus aide or any other regular school employee who actually works on a school bus helping with the transportation of school children. If a person is employed by and is eligible to be a member of more than one public agency within the state, he must be a member of each such retirement system. Members are vested after 10 years of service or 5 years if enrolled after June 30, 2010.

All temporary, seasonal and part-time employees as defined in Federal Regulations 26 CFR 31:3121(b)(7)-2 are not eligible for membership in the System. Any part-time employees who work 20 hours or less per week and who are not vested will be refunded their contributions.

Benefits

Benefit provisions are authorized under Louisiana Revised Statutes 11:1141 - 11:1153.

A member who joined the System on or before June 30, 2010 is eligible for normal retirement if he has at least 30 years of creditable service regardless of age, 25 years of creditable service and is at least age 55, 20 years of creditable service regardless of age with an actuarially reduced benefit, or 10 years of creditable service and is at least age 60. A member who joined the system on or after July 1, 2010 is eligible for normal retirement if he has at least 5 years of creditable service and is at least age 60, or 20 years of creditable service regardless of age with an actuarially reduced benefit.

ST. MARTIN PARISH SCHOOL BOARD
Breaux Bridge, Louisiana

Notes to Basic Financial Statements (Continued)

For members who joined the System prior to July 1, 2006, the maximum retirement benefit is an amount equal to 3 1/3% of the average compensation for the three highest consecutive years of membership service, subject to the 10% salary limitation, multiplied by the number of years of service limited to 100% of final average compensation plus a supplementary allowance of \$2.00 per month for each year of service. For members who joined the System on or after July 1, 2006 through June 30, 2010, 3 1/3% of the average compensation is used to calculate benefits; however, the calculation consists of the five highest consecutive years of membership service, subject to the 10% salary limitation. For members who join the System on or after July 1, 2010, 2 1/2% of the average compensation is used to calculate benefits and consists of the five highest consecutive years' average salary, subject to the 15% salary limitation. The supplemental allowance was eliminated for members entering the System on or after July 1, 1986. Effective January 1, 1992, the supplemental allowance was reinstated to all members whose service retirement became effective after July 1, 1971.

Disability

A member is eligible to retire and receive disability benefits if he has at least five years of creditable service, is not eligible for normal retirement and has become totally and permanently disabled and is certified as disabled by the Medical Board. A vested person with twenty or more years of creditable service is eligible for a disability benefit until normal retirement age. A member who joins the System on or after July 1, 2006, must have at least ten years of service to qualify for disability benefits. Upon the death of a member with five or more years of creditable service, the System provides benefits for surviving spouses and minor children. Under certain conditions outlined in the statutes, a spouse is entitled to 75% of the member's benefit.

Deferred Retirement Option Plan:

Members of the System may elect to participate in the Deferred Retirement Option Plan, (DROP) and defer the receipt of benefits. The election may be made only one time and the duration is limited to three years. Once an option has been selected, no change is permitted. Upon the effective date of the commencement of participation in the DROP Plan, active membership in the regular retirement plan of the System terminates. Average compensation and creditable service remain as they existed on the effective date of commencement of participation in the System. The monthly retirement benefits, that would have been payable had the person elected to cease employment and receive a service retirement allowance, are paid into the Deferred Retirement Option Plan Fund Account.

The System maintains subaccounts within this account reflecting the credits attributed to each participant in the DROP program. Interest credited and payments from the DROP account are made in accordance with Louisiana Revised Statutes 11:1152(F)(3). Upon termination of participation in both the DROP program and

ST. MARTIN PARISH SCHOOL BOARD
Breaux Bridge, Louisiana

Notes to Basic Financial Statements (Continued)

employment, a participant may receive his DROP monies either in a lump sum payment from the account or systematic disbursements.

The System also provides for deferred benefits for vested members who terminate before being eligible for retirement. Once the member reaches the appropriate age for retirement, benefits become payable.

Initial Benefit Retirement Plan:

Effective January 1, 1996, the state legislature authorized the System to establish an Initial Benefit Retirement Plan (IBRP) program. IBRP is available to members who have not participated in DROP and who select the maximum benefit, Option 2 benefit, Option 3 benefit or Option 4 benefit. Thereafter, these members are ineligible to participate in the DROP. The IBRP program provides both a one-time single sum payment of up to 36 months of a regular monthly retirement benefit, plus a reduced monthly retirement benefit for life. Interest credited and payments from IBRP account are made in accordance with Louisiana Revised Statutes 11:1152(F)(3).

Employer Contributions

Contributions for all participating school boards are actuarially determined as required by Act 81 of 1988 but cannot be less than the rate required by the Constitution. The actual employer rate for the years ended June 30, 2015 was 33.0%. The employer contributed \$1,245,354 during the fiscal year ending June 30, 2016.

Schedule of Employer Allocations

The schedule of employer allocations reports the historical employer contributions recognized by the System in addition to the employer allocation percentage for each participating employer. The historical employer contribution is used to determine the proportionate relationship of each employer to all employers of the State of Louisiana School Employees' Retirement System.

The employer's proportion was determined on a basis that is consistent with the manner in which contributions to the System are determined. The allocation percentages were used in calculating each employer's proportionate share of pension amounts.

The allocation method used in determining each employer's proportion was based on each employer's contribution the System during the year ended June 30, 2015 as compared to the total of all contributions to the System during the year ended June 30, 2015.

ST. MARTIN PARISH SCHOOL BOARD
Breaux Bridge, Louisiana

Notes to Basic Financial Statements (Continued)

Pension Liabilities, Pension Expense, Deferred Outflows of Resources, and Deferred Inflows of Resources Related to Pensions

At June 30, 2016, the School Board reported a liability of \$9,149,400 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2015 and the total pension liability used to calculate the Net Pension Liabilities was determined by an actuarial valuation as of that date. The School Board's proportion of the Net Pension Liability was based on a projection of the School Board's long-term share of contributions to the pension plan relative to the projected contributions of all participating employers, actuarially determined. At June 30, 2015, the School Board's proportion was 1.442834% which was a decrease of .049666% from its proportion measured as of June 30, 2014.

For the year ended June 30, 2016, the School Board recognized pension expense of \$640,907 plus employer's amortization of change in proportionate share and differences between employer contributions and proportionate share of contributions, \$722.

At June 30, 2016, the School Board reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Differences between expected and actual experiences	\$ -	\$ 815,848
Changes of assumptions	658,104	-
Net difference between projected and actual earnings on pension plan investments	-	425,693
Change in proportion and differences between employer contributions and proportionate share of contributions	34,036	225,286
Employer contributions subsequent to the measurement date	<u>1,245,354</u>	<u>-</u>
Total	<u>\$ 1,937,494</u>	<u>\$ 1,466,827</u>

Deferred outflows of resources of \$1,245,354 related to pensions resulting from the School Board's contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2016. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

ST. MARTIN PARISH SCHOOL BOARD
Breaux Bridge, Louisiana

Notes to Basic Financial Statements (Continued)

Fiscal Year Ended	
6/30/2017	\$ (434,553)
6/30/2018	(349,123)
6/30/2019	(217,340)
6/30/2020	226,329

Contributions – Proportionate Share

Differences between contributions remitted to the System and the employer's proportionate share are recognized in pension expense/(benefit) using the straight line amortization method over a closed period equal to the average of the expected remaining service lives of all employees that are provided with a pension through the pension plan. The resulting deferred inflow/outflow and amortization is not reflected in the schedule of employer amounts due to differences that could arise between contributions reported by the System and contributions reported by the participating employer.

Actuarial Methods and Assumptions

The net pension liability was measured as the portion of the present value of projected benefit payments to be provided through the pension plan to current active and inactive employees that is attributed to those employees' past periods of service, less the amount of the pension plan's fiduciary net position.

Actuarial valuations involve estimates of the value of reported amounts and assumptions about the probability of events far into the future. Examples include assumptions about future employment mortality and future salary increases. Actuarially determined amounts regarding the net pension liability are subject to continual revision as actual results are compared to past expectations, and new estimates are made about the future.

The actuarial assumptions used in the June 30, 2015 valuation were based on the assumptions used in the June 30, 2014 actuarial funding valuation, and were initially designed to match, to the extent possible, those used by the prior actuary. The actuarial assumptions used in the June 30, 2014 valuation were based on the results of an experience study performed in 2013, for the period July 1, 2008 through June 30, 2012. The general economic and non-economic assumptions used by the prior actuary for the June 30, 2014 valuation were reviewed and a determination was made to retain them with the exception of the statistics related to family composition and rates of remarriage. Adjustments to some non-mortality decrements were necessary due to differences in the software model used in the prior valuation.

ST. MARTIN PARISH SCHOOL BOARD
Breau Bridge, Louisiana

Notes to Basic Financial Statements (Continued)

A summary of the actuarial methods and assumptions used in determining the total pension liability as of June 30, 2015 are as follows:

Valuation Date	June 30, 2015
Actuarial Cost Method	Entry Age Normal Cost
Investment Rate of Return	7.0%, net of investment expense
Expected Remaining Service Lives	2015 - 3 years 2014 - 3 years
Inflation Rate	2.75%
Mortality	Mortality rates based on the RP-2000 Combined Healthy Sex Distinct Mortality Table
Salary Increases	Salary increases were projected based on a 2008 - 2012 experience study of the Plan's members. The annual salary growth rates are based upon the members' years of service.
Cost of Living Adjustments	Cost-of-living raises may be granted from the Experience Account provided there are sufficient funds needed to offset the increase in the actuarial liability and the plan has met the criteria and eligibility requirements outline by Act 399 of 2014.

The long-term expected rate of return on pension plan investments was determined using a triangulation method which integrated the CAPM pricing model (top-down), a treasury yield curve approach (bottom-up) and an equity building-block model (bottom-up). Risk return and correlations are projected on a forward looking basis in equilibrium, in which best-estimates of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These rates are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

ST. MARTIN PARISH SCHOOL BOARD
Breux Bridge, Louisiana

Notes to Basic Financial Statements (Continued)

The best estimates of geometric real rates of return for each major asset class included in the System's target asset allocation as of June 30, 2015 are summarized in the following table:

Asset Class	Target Asset Allocation	Long-Term Expected Portfolio Real Rate of Return
Fixed Income	30%	1.06%
Equity	51%	3.61%
Alternatives	13%	0.89%
Real Assets	6%	0.44%
Totals	100%	6.00%
Inflation		2.30%
Expected Arithmetic Nominal Return		8.30%

The discount rate used to measure the total pension liability was 7.0%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rates and that contributions from participating employers will be made at the actuarially determined rates approved by PERSAC taking into consideration the recommendation of the System's actuary. Based on those assumptions, the System's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity to Changes in Discount Rate

The following presents the net pension liability of the participating employers calculated using the discount rate of 7.0%, as well as what the employers' net pension liability would be if it were calculated using a discount rate that is one percentage point lower 6.0% or one percentage point higher 8.0% than the current rate.

	Changes in Discount Rate		
	1%	Current	1%
	Decrease	Discount Rate	Increase
	6.0%	7.0%	8.0%
Employer's proportionate share of net pension liability	\$ 12,569,054	\$ 9,149,400	\$ 6,225,313

ST. MARTIN PARISH SCHOOL BOARD
Breux Bridge, Louisiana

Notes to Basic Financial Statements (Continued)

Change in Net Pension Liability

The changes in the net pension liability for the year ended June 30, 2015 were recognized in the current reporting period as pension expense except as follows:

1. Differences between expected and actual experience: Differences between expected and actual experience with regard to economic or demographic factors in the measurement of the total pension liability were recognized as pension expense using the straight-line amortization method over a closed period equal to the average of the expected remaining service lives of all employees that are provided with pensions through the pension plan. The difference between expected and actual experience resulted in a deferred inflow of resources in the amount of \$815,848 for the year ended June 30, 2015.
2. Differences between projected and actual investment earnings: Differences between projected and actual investment earnings on pension plan investments were recognized in pension expense using the straight-line amortization method over a closed five-year period. The difference between projected and actual investment earnings resulted in a deferred inflow of resources in the amount of \$425,693 for the year ended June 30, 2015.
3. Changes of assumptions or other inputs: Changes of assumptions about future economic or demographic factors or of other inputs were recognized in pension expense using the straight-line amortization method over a closed period equal to the average of the expected remaining service lives of all employees that are provided with pensions through the pension plan. Changes of assumptions or other inputs resulted in a deferred outflow of resources in the amount of \$658,104 for the year ended June 30, 2015.
4. Change in proportion: Changes in the employer's proportionate shares of the collective net pension liability and collective deferred outflows of resources and deferred inflows of resources since the prior measurement date were recognized in employer's pension expense/(benefit) using the straight-line amortization method over a closed period equal to the average of the expected remaining service lives of all employees that are provided pensions through the pension plan. The change in proportion resulted in a deferred outflow of resources in the amount of \$34,036 and in a deferred inflow of resources in the amount of \$225,286 for the ending June 30, 2015.

Estimates

The process of preparing the schedule of employer allocations and schedule of pension amounts in conformity with accounting principles generally accepted in the United States of America requires the use of estimates and assumptions regarding certain types of assets, liabilities, revenues and expenses. Accordingly, actual results may differ from estimated amounts.

Breaux Bridge, Louisiana

Notes to the Required Supplementary Information
For the Year Ended June 30, 2016

(1) Budget Practices

The School Board adopted budgets for the General Fund and the Special Revenue Funds. Budgets are prepared on a modified accrual basis of accounting. All appropriations lapse at year end, and any encumbrances outstanding are included in the next year's budget. Formal budget accounts are integrated into the accounting system as a management control device.

The superintendent of schools and the chief financial officer are authorized to transfer amounts between budgeted line items within any fund; however, board approval must be obtained prior to the transfer of funds from different departments within the General Fund. In addition, any unfavorable variances of revenues or expenditures of five percent or more within a fund must be presented to the School Board for Board action to amend fund budgets. Budgeted amounts included in the accompanying financial statements include the original adopted budgets and all subsequent amendments.

(2) Pension Plan

Changes of Assumptions - Changes of assumptions about future economic or demographic factors or of other inputs were recognized in pension expense using the straight-line amortization method over a closed period equal to the average of the expected remaining service lives of all employees that are provided with pensions through the pension plan.

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

Dr. Lottie P. Beebe, Superintendent
and Members of the St. Martin Parish
School Board
Breaux Bridge, Louisiana

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the St. Martin Parish School Board, as of and for the year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the St. Martin Parish School Board's basic financial statements, and have issued our report thereon dated December 15, 2016.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the St. Martin Parish School Board's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the St. Martin Parish School Board's internal control. Accordingly, we do not express an opinion on the effectiveness of the St. Martin Parish School Board's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the

entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses, or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. We did identify a certain deficiency in internal control, described in the accompanying schedule of findings, questioned costs and management's corrective action plan, as item 2016-001, that we consider to be a material weakness.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the St. Martin Parish School Board's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

St. Martin Parish School Board's Response to Findings

St. Martin Parish School Board's response to the findings indentified in our audit is described in the accompanying schedule of findings, questioned costs and management's corrective action plan. St. Martin Parish School Board's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose. Although the intended use of this report may be limited, under Louisiana Revised Statute 24:513, this report is distributed by the Louisiana Legislative Auditor as a public document.

INDEPENDENT AUDITORS' REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

Dr. Lottie P. Beebe, Superintendent
and Members of the St. Martin Parish
School Board
Breaux Bridge, Louisiana

Report on Compliance for Each Major Federal Program

We have audited the St. Martin Parish School Board's compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the St. Martin Parish School Board's major federal programs for the year ended June 30, 2016. The St. Martin Parish School Board's major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings, questioned costs and management's corrective action plan.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditors' Responsibility

Our responsibility is to express an opinion on compliance for each of the St. Martin Parish School Board's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major

federal program occurred. An audit includes examining, on a test basis, evidence about the St. Martin Parish School Board's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the St. Martin Parish School Board's compliance.

Opinion on Each Major Federal Program

In our opinion, the St. Martin Parish School Board complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2016.

Report on Internal Control over Compliance

Management of the St. Martin Parish School Board is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the St. Martin Parish School Board's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly we do not express an opinion on the effectiveness of the St. Martin Parish School Board's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose. Although the intended use of this report may be limited, under Louisiana Revised Statute 24:513, this report is distributed by the Louisiana Legislative Auditor as a public document.

Notes to Schedule of Expenditures of Federal Awards
For the Year Ended June 30, 2016

(1) General

The accompanying Schedule of Expenditures of Federal Awards presents the activity of all federal financial assistance programs of the St. Martin Parish School Board (the School Board). The School Board reporting entity is defined in Note 1 to the basic financial statements for the year ended June 30, 2016. All federal financial assistance received directly from federal agencies is included on the schedule as well as federal financial assistance passed through other government agencies. The major programs are identified with an asterisk (*) on the schedule.

(2) Basis of Accounting

The accompanying Schedule of Expenditures of Federal Awards is presented using the modified accrual basis of accounting, which is described in Note 1 to the School Board's basic financial statements for the year ended June 30, 2016.

(3) Relationship to Fund Financial Statements

Federal financial assistance revenues are reported in the School Board's fund financial statements as follows:

From federal sources:

Special Revenue Funds	<u>\$ 11,415,725</u>
-----------------------	----------------------

(4) Indirect cost rate

The School Board has elected not to use the 10 percent de minimis indirect cost rate as allowed under the Uniform Guidance.

(5) Relationship to Federal Financial Reports

Amounts reported in the Schedule of Expenditures of Federal Awards agree with the amounts reported in the related federal financial reports.

ST. MARTIN PARISH SCHOOL BOARD
Breaux Bridge, Louisiana

Schedule of Findings, Questioned Costs and
Management's Corrective Action Plan
For the Year Ended June 30, 2016

Part I: Summary of Auditors' Results:

1. An unmodified opinion was issued on the financial statements.
2. A material weakness in internal control was disclosed by the audit of the financial statements.
3. Material noncompliance was not disclosed.
4. No significant deficiencies in internal control over the major programs were disclosed by the audit of the financial statements.
5. An unmodified opinion was issued on compliance for the major programs.
6. The audit disclosed no audit findings required to be reported with 2 CFR Section 200.516(a).
7. The major programs were:
 - U.S. Department of Education: Title I Grants to Local Educational Agencies
 - U.S. Department of Education: Improving Teacher Quality State Grants- Title II
 - U.S. Department of Health and Human Services: Temporary Assistance for Needy Families- LA 4
8. The dollar threshold used to distinguish between Type A and Type B programs was \$750,000.
9. The auditee did not qualify as a low-risk auditee.

Part II: Findings which are required to be reported in accordance with generally accepted governmental auditing standards:

2016-001 – Misappropriation of Funds

Condition and Criteria:

An employee of the school board misappropriated funds from the administrative office. The approximate amount of the theft is \$17,338.

Effect:

This condition represents a material weakness in the internal control of the school board.

(continued)

ST. MARTIN PARISH SCHOOL BOARD
Breaux Bridge, Louisiana

Schedule of Findings, Questioned Costs and
Management's Corrective Action Plan (continued)
For the Year Ended June 30, 2016

Cause:

The condition resulted because the procedures in place were not being consistently followed and monitored to prohibit such misappropriation of funds.

Recommendation:

The school board needs to strengthen and/or add controls over the funds collected.

Management's Corrective Action Plan:

All new hires entering the Department of Administration to be fingerprinted will be asked by the receptionist to sign in on the background check log. A human resources secretary will go to the front desk to meet the new hire and escort them to the fingerprint area. Once at the fingerprint area, the new hire will sign a second background check log. Once the fingerprinting has been completed, the human resources secretary will add the time, date, and case number assigned by the Department of Public Safety Services and collect the money order made payable to the St. Martin Parish School Board. All money orders will be locked up nightly by the human resources secretary and turned in at the end of the week to Jerry Mouissett, Accountant, in the business office. Mr. Mouissett will retrieve both background check logs and verify that the money orders being turned in match both logs.

At the end of each month, the human resources secretary will create a purchase order for the Department of Public Safety Services for the number of fingerprints completed that month. When the invoice is received from the Department of Public Safety Services, the human resources secretary will indicate such on the purchase order and forward the invoice to accounts payable to be paid. She will also forward a copy of the invoice to Jerry Mouissett to reconcile to the total month's deposit. The amount collected should match the amount billed.

Mr. Mouissett is in charge of implementing this plan. The plan will be fully implemented by January 5, 2017.

See additional information presented on pages 87 through 88 as it relates to this finding.

#	ELEMENT OF FINDING	RESPONSE
1	A general statement describing the fraud or misappropriation that occurred.	Fees received were not deposited into the St. Martin Parish School Board bank account.
2	A description of the funds or assets that were the subject of the fraud or misappropriation (ex., utility receipts, petty cash, computer equipment).	Fingerprinting fees
3	The amount of funds or approximate value of assets involved.	\$17,338.00
4	The department or office in which the fraud or misappropriation occurred.	Personnel Department
5	The period of time over which the fraud or misappropriation occurred.	09/2014 - 07/2016
6	The title/agency affiliation of the person who committed or is believed to have committed the act of fraud or misappropriation.	Personnel Secretary
7	The name of the person who committed or is believed to have committed the act of fraud or misappropriation, if formal charges have been brought against the person and/or the matter has been adjudicated.	Ellen Taylor
8	Is the person who committed or is believed to have committed the act of fraud still employed by the agency?	No
9	If the person who committed or is believed to have committed the act of fraud is still employed by the agency, do they have access to assets that may be subject to fraud or misappropriation?	N/A
10	Has the agency notified the appropriate law enforcement body about the fraud or misappropriation?	Yes
11	What is the status of the investigation at the date of the auditor's/accountant's report?	Local Sheriff made arrest and turned investigation over to the District Attorney's office. Investigation is complete. The DA is now in the process of contacting Ms. Taylor to set up a meeting to discuss a payment plan.
12	If the investigation is complete and the person believed to have committed the act of fraud or misappropriation has been identified, has the agency filed charges against that person?	No. Decision to file charges is dependent on the meeting mentioned in #11.
13	What is the status of any related adjudication at the date of the auditor's/accountant's report?	N/A - still pending with the District Attorney's office.
14	Has restitution been made or has an insurance claim been filed?	No

(continued)

ST. MARTIN PARISH SCHOOL BOARD
Breux Bridge, Louisiana

Schedule of Findings, Questioned Costs and
Management's Corrective Action Plan (continued)
For the Year Ended June 30, 2016

#	ELEMENT OF FINDING	RESPONSE
15	Has the agency notified the Louisiana Legislative Auditor and the District Attorney in writing, as required by Louisiana Revised Statute 24:523 (Applicable to local governments only)	The Louisiana Legislative Auditor was notified in writing. The District Attorney was notified; however, it was done verbally. The local Sheriff notified the District Attorney in writing.
16	Did the agency's internal controls allow the detection of the fraud or misappropriation in a timely manner?	No
17	If the answer to the last question is "no," describe the control deficiency/significant deficiency/material weakness that allowed the fraud or misappropriation to occur and not be detected in a timely manner.	Material weakness in Internal Control. Procedures in place were not being consistently followed and monitored to prohibit this.
18	Management's plan to ensure that the fraud or misappropriation does not occur in the future	See management's corrective action plan noted on page 86.

Part III: Findings and questioned costs for Federal awards in accordance with 2 CFR Section 200 of the Uniform Guidance:

There are no findings at June 30, 2016.

Part IV: Management Letter Item:

There are no management letter items at June 30, 2016.

ST. MARTIN PARISH SCHOOL BOARD
Breaux Bridge, Louisiana

Summary Schedule of Prior Audit Findings
For the Year Ended June 30, 2016

Section I: Findings which are required to be reported in accordance with generally accepted governmental auditing standards:

There were no findings at June 30, 2015

Section II: Findings and questioned costs for Federal awards which include audit findings as defined in Section 510(a) of Circular A-133:

There were no findings at June 30, 2015.

Section III: Management Letter Items:

2015-001 – Misappropriation of Funds

Finding:

In fiscal year ended June 30, 2014, an employee of the school board misappropriated funds from the school she was assigned to. The employee resigned in June, 2014. The approximate amount of the misappropriation was estimated at \$19,935 as of June 30, 2014. This matter continued to be analyzed in fiscal year ending June 30, 2015. The estimated amount of the misappropriation is now \$24,736.

In fiscal year ended June 30, 2014, Casey V. Broussard, CFO and Allen Blanchard, Jr., Director of Personnel contacted the St. Martin Parish Sheriff's Office, the Sixteenth Judicial District Attorney's Office, and the Legislative Auditor's Office. The case is being handled by the District Attorney's Office. The defendant entered the Pretrial Diversion Program with the District Attorney's Office. Under this program, she was placed on supervised probation for two years, during which time she will have to pay supervision fees, perform community service, complete a theft prevention course, and report to them monthly for supervision. During probation, she must refrain from all criminal conduct. At the end of probation, if all conditions are completed successfully, the charges will be dismissed. Failure to comply will result in the case being sent for prosecution. The defendant has not paid any additional restitution above what was paid in fiscal year ended June 30, 2014 in the amount of \$8,800. The school board is owed additional funds of approximately \$15,936.

Although the finding was not completely resolved as of June 30, 2015, the only "open" component of the matter was analyzing additional financial records to determine if additional funds were misappropriated. Now that the analysis is complete, the school board needs to remit final information to the District Attorney's Office.

Status:

Resolved. All funds were collected.

* A Professional Accounting Corporation

Dr. Lottie P. Beebe, Superintendent
and Members of the St. Martin Parish
School Board
Breau Bridge, Louisiana

We have performed the procedures included in the *Louisiana Governmental Audit Guide* and enumerated below, which were agreed to by the management of the St. Martin Parish School Board and the Legislative Auditor, State of Louisiana, solely to assist users in evaluating management's assertions about the performance and statistical data accompanying the annual financial statements of the St. Martin Parish School Board and to determine whether the specified schedules are free of obvious errors and omissions as provided by the Board of Elementary and Secondary Education. Management of the St. Martin Parish School Board is responsible for its financial records and compliance with applicable laws. This agreed-upon procedures engagement was performed in accordance with standards established by the American Institute of Certified Public Accountants. The sufficiency of these procedures is solely the responsibility of the specified users of the report. Consequently, we make no representation regarding the sufficiency of the procedures described below either for the purpose for which this report has been requested or for any other purpose.

Our procedures and findings relate to the accompanying schedules of supplemental information and are as follows:

General Fund Instructional and Support Expenditures and Certain Local Revenue Sources (Schedule 1)

1. We selected a random sample of 25 transactions and reviewed supporting documentation to determine if the sampled expenditures/revenues are classified correctly and are reported in the proper amounts for each of the following amounts reported on the schedule:
 - Total General Fund Instructional Expenditures
 - Total General Fund Equipment Expenditures
 - Total Local Taxation Revenue
 - Total Local Earnings on Investment in Real Property

- Total State Revenue in Lieu of Taxes
- Nonpublic Textbook Revenue
- Nonpublic Transportation Revenue

There were no exceptions noted.

Education Levels of Public School Staff (Schedule 2)

2. We reconciled the total number of full-time classroom teachers per the schedule “Experience of Public Principals, Assistant Principals, and Full-time Classroom Teachers” (Schedule 4) to the combined total number of full-time classroom teachers per this schedule and to school board supporting payroll records as of October 1.

There were no exceptions noted.

3. We reconciled the combined total of principals and assistant principals per the schedule “Experience of Public Principals, Assistant Principals, and Full-time Classroom Teachers” (Schedule 4) to the combined total of principals and assistant principals per this schedule.

There were no exceptions noted.

4. We obtained a list of full-time teachers, principals, and assistant principals by classification as of October 1 and as reported on the schedule. We traced a random sample of 25 teachers to the individual’s personnel file and determined if the individual’s education level was properly classified on the schedule.

There were no exceptions noted.

Number and Type of Public Schools (Schedule 3)

5. We obtained a list of schools by type as reported on the schedule. We compared the list to the schools and grade levels as reported on the Title 1 Grants to Local Educational Agencies (CFDA 84.010) application and/or the National School Lunch Program (CFDA 10.555) application.

There were no exceptions noted.

Experience of Public Principals, Assistant Principals, and Full-time Classroom Teachers (Schedule 4)

6. We obtained a list of full-time teachers, principals, and assistant principals by classification as of October 1 and traced the same sample used in procedure 4 to the individual’s personnel file and determined if the individual’s experience was properly classified on the schedule.

There were three (3) exceptions noted. The years of experience reported on the PEP report as of October 1 for 3 of the 25 teachers sampled were incorrect.

Public School Staff Data: Average Salaries (Schedule 5)

7. We obtained a list of all classroom teachers including their base salary, extra compensation, and ROTC or rehired retiree status as well as full-time equivalent as reported on the schedule and traced a random sample of 25 teachers to the individual's personnel file and determined if the individual's salary, extra compensation, and full-time equivalents were properly included on the schedule.

There was one (1) exception noted. The average salary reported on the PEP report as of June 30 for one of the 25 teachers sampled was incorrect.

8. We recalculated the average salaries and full-time equivalents reported in the schedule.

There were no exceptions noted.

Class Size Characteristics (Schedule 6)

9. We obtained a list of classes by school, school type, and class size as reported on the schedule and reconciled school type classifications to Schedule 3 data, as obtained in procedure 5. We then traced a random sample of 10 classes to the October 1 roll books for those classes and determined if the class was properly classified on the schedule.

There were no exceptions noted.

Louisiana Educational Assessment Program (LEAP) (Schedule 7)

10. We obtained test scores as provided by the testing authority and reconciled scores as reported by the testing authority to scores reported in the schedule by St. Martin Parish School Board.

There were no exceptions noted.

Graduation Exit Examination (GEE) (Schedule 8)

11. The Graduation Exit Examination (GEE) is no longer administered. This schedule is no longer applicable.

iLEAP Tests (Schedule 9)

12. We obtained test scores as provided by the testing authority and reconciled scores as reported by the testing authority to scores reported in the schedule by St. Martin Parish School Board.

There were no exceptions noted.

We were not engaged to, and did not, perform an examination, the objective of which would be the expression of an opinion on management's assertions. Accordingly, we do not express such an opinion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

This report is intended solely for the use of management of St. Martin Parish School Board, the Louisiana Department of Education, the Louisiana Legislature, and the Legislative Auditor, State of Louisiana, and should not be used by those who have not agreed to the procedures and taken responsibility for the sufficiency of the procedures for their purposes. Under Louisiana Revised Statute 24:513, this report is distributed by the Legislative Auditor as a public document.

ST. MARTIN PARISH SCHOOL BOARD
Breux Bridge, Louisiana
Schedules Required by State Law (R.S. 24:514 – Performance and Statistical Data)
As of and for the Year Ended June 30, 2016

Schedule 1 – General Fund Instructional and Support Expenditures and Certain Local Revenue Sources

This schedule includes general fund instructional and equipment expenditures. It also contains local taxation revenue, earnings on investments, revenue in lieu of taxes, and nonpublic textbook and transportation revenue. This data is used either in the Minimum Foundation Program (MFP) formula or is presented annually in the MFP 70% Expenditure Requirement Report.

Schedule 2 – Education Levels of Public School Staff

This schedule includes the certified and uncertified number and percentage of full-time classroom teachers and the number and percentage of principals and assistant principals with less than a Bachelor's; Bachelor's; Master's; Master's +30; Specialist in Education; and Ph. D or Ed. D degrees. This data is currently reported to the Legislature in the Annual Financial and Statistical Report (AFSR).

Schedule 3 – Number and Type of Public Schools

This schedule includes the number of elementary, middle/junior high, secondary and combination schools in operation during the fiscal year. This data is currently reported to the Legislature in the Annual Financial and Statistical Report (AFSR).

Schedule 4 – Experience of Public Principals, Assistant Principals, and Full-time Classroom Teachers

This schedule includes the number of years of experience in teaching for assistant principals, principals, and full-time classroom teachers. This data is currently reported to the Legislature in the Annual Financial and Statistical Report (AFSR).

Schedule 5 – Public School Staff Data: Average Salaries

This schedule includes average classroom teachers' salary using full-time equivalents, including and excluding ROTC and rehired retiree teachers. This data is currently reported to the Legislature in the Annual Financial and Statistical Report (AFSR).

Schedule 6 – Class Size Characteristics

This schedule includes the percent and number of classes with student enrollment in the following ranges: 1-20, 21-26, 27-33, and 34+ students. This data is currently reported to the Legislature in the Annual Financial and Statistical Report (AFSR).

Schedule 7 – Louisiana Educational Assessment Program (LEAP)

This schedule represents student performance testing data and includes summary scores by district for grades 3, 4, 5, 6, 7, and 8 in each category tested. Scores are reported as Advanced, Mastery, Basic, Approaching Basic, and Unsatisfactory. This schedule includes three years of data.

Schedule 8 – Graduation Exit Examination (GEE)

The Graduation Exit Examination (GEE) is no longer administered. This schedule is no longer applicable.

Public School Staff Data: Average Salaries
For the Year Ended June 30, 2016

	All Classroom Teachers	Classroom Teachers Excluding ROTC, Rehired Retirees and Flagged Salary Reductions
Average Classroom Teachers' Salary Including Extra Compensation	51,130	50,799
Average Classroom Teachers' Salary Excluding Extra Compensation	51,053	50,794
Number of Teacher Full-time Equivalent (FTEs) used in Computation of Average Salaries	498	472

Note: Figures reported include all sources of funding (i.e., federal, state, and local) but exclude stipends and employee benefits. Generally, retired teachers rehired to teach receive less compensation than non-retired teachers; some teachers may have been flagged as receiving reduced salaries (e.g., extended medical leave); and ROTC teachers usually receive more compensation because of a federal supplement. For these reasons, these teachers are excluded from the computation in the last column. This schedule excludes day-to-day substitutes, temporary employees, and any teachers on sabbatical leave during any part of the school year.

ST. MARTIN PARISH SCHOOL BOARD
St. Martinville, Louisiana

Class Size Characteristics
As of October 1, 2015

School Type	Class Size Range							
	1 - 20		21 - 26		27 - 33		34+	
	Percent	Number	Percent	Number	Percent	Number	Percent	Number
Elementary	23.16%	302	53.83%	612	12.15%	60	15.00%	3
Elementary Activity Classes	2.07%	27	9.06%	103	1.82%	9	20.00%	4
Middle/Jr. High	18.79%	245	16.89%	192	27.13%	134	10.00%	2
Middle/Jr. High Activity Classes	4.52%	59	2.02%	23	4.25%	21	20.00%	4
High	33.59%	438	17.33%	197	53.85%	266	30.00%	6
High Activity Classes	17.87%	233	0.88%	10	0.81%	4	5.00%	1
Combination	0.00%	0	0.00%	0	0.00%	0	0.00%	0
Combination Activity Classes	0.00%	0	0.00%	0	0.00%	0	0.00%	0

Note: The Board of Elementary and Secondary Education has set specific limits on the maximum size of classes at various grade levels. The maximum enrollment in grades K-3 is 26 students and maximum enrollment in grades 4-12 is 33 students. These limits do not apply to activity classes such as physical education, chorus, band, and other classes without maximum enrollment standards. Therefore, these classes are included only as separate line items.
