INDEPENDENT AUDITORS' REPORT

Board of Levee Commissioners of the
Pontchartrain Levee District
State of Louisiana
Lutcher, Louisiana

Report on Financial Statements

We have audited the accompanying financial statements of the governmental activities and each major fund of the Pontchartrain Levee District (the "Levee District"), a component unit of the State of Louisiana, as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the Levee District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentations of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit includes performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and reasonableness of significant accounting estimates made by management, as well as evaluating the overall financial statement presentation.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinion

In our opinion, the financial statements referred to above, present fairly, in all material respects, the respective financial position of the governmental activities and each major fund of the Pontchartrain Levee District as of June 30, 2019, and the respective changes in financial position thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and the required supplementary information listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to management's discussion and analysis and the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was made for the purpose of forming an opinion on the financial statements that collectively comprise the Levee District's basic financial statements. The other accompanying supplementary information, as listed in the table of contents, are presented for purposes of additional analysis and is not a required part of the basic financial statements of the Levee District.

The other accompanying supplementary information including the Division of Administration Reporting Packet, as listed in the table of contents, are the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information noted above is fairly stated in all material respects in relation to the basic financial statement taken as a whole.

Other Reporting Required by Governmental Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated August 30, 2019, on our consideration of the Levee District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contract and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results on our audit.

Lake Charles, Louisiana
August 30, 2019

MANAGEMENT'S DISCUSSION AND ANALYSIS

The management's discussion and analysis of the Board of Levee Commissioners of the Pontchartrain Levee District (the "Levee District") financial performance presents a narrative overview and analysis of the commission's financial activities for the year ended June 30, 2019. This document focused on the current year's activities, resulting changes and currently known facts. Please read this document in conjunction with the Levee District's financial statements.

Financial Highlights

- Total net position increased \$4,863,075 to \$193,021,761 at June 30, 2019 from the June 30, 2018 amount of \$188,158,686.
- The Levee District recorded long-term debt for the other post-employment benefits (other than retirement benefits) liability for retiree's benefits in the amount of \$7,316,074 as required under Government Accounting Standard Board (GASB) Statement No. 75 – *Accounting and Financial Reporting for Postemployment Benefits Other than Pensions*. See notes to financial statements for further discussion.
- The Levee District recognized its proportionate share of its pension liability in fiscal year 2019 in accordance with GASB 68 in the amount of \$6,673,912 as of June 30, 2019.
- During fiscal year 2019, the Levee District made levee improvements including levee lifts and other improvements and repairs to pump stations which are included in the total expenditures of \$7,881,048.

Overview of the basic financial statements

This discussion and analysis is intended to serve as an introduction to the Levee District's financial statements, which is comprised of government-wide financial statements, fund financial statements and notes to the financial statements.

The government-wide financial statements present financial information for all activities of the Levee District from an economic resources measurement focus using the accrual basis of accounting. They present governmental activities, such as general government and debt service, separately from business-type activities. The Levee District has only governmental activities. Government-wide financial statements for governmental activities include the Statement of Net Position and the Statement of Activities. They provide information about the activities of the Levee District as a whole and present a longer-term view of the Levee District's finances.

The Levee District has several governmental type funds with its major funds being the General Fund, Special Construction Fund, Cross Bayou Pumping Station Fund and the West Shore Feasibility Study Fund. The fund financial statements are comprised of the Balance Sheet and the Statement of Revenues, Expenditures and Changes in Fund Balances. These statements report how the Levee District's flood protection services are financed in the short term as well as what remains for future spending. These funds are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed *short-term view* of the Levee District's general operations and the basic services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the Levee District's programs. Fund financial statements also report the Levee District's operations in more detail than the government-wide statements by providing information about the Levee District's major funds. We describe the relationship (or differences) between the governmental activities (reported in the Statement of Net Position and the Statement of Activities) and the governmental funds in a reconciliation at the bottom of the fund financial statements.

MANAGEMENT'S DISCUSSION AND ANALYSIS

Financial Analysis of the Levee District

The following presents condensed financial information on the operation of the Levee District:

	<u>June 30, 2019</u>	<u>June 30, 2018</u>	<u>Change</u>
Current assets and deferred outflows	\$ 35,612,634	\$ 30,523,422	\$ 5,089,212
Capital assets, net	172,833,730	173,393,292	(559,562)
Total assets and deferred outflows	<u>\$ 208,446,364</u>	<u>\$ 203,916,714</u>	<u>\$ 4,529,650</u>
Current liabilities	\$ 449,869	\$ 392,416	\$ 57,453
Long-term liabilities and deferred inflows	14,974,734	15,365,612	(390,878)
Total liabilities and deferred inflows	<u>\$ 15,424,603</u>	<u>\$ 15,758,028</u>	<u>\$ (333,425)</u>
Net investment in capital assets	\$ 172,833,730	\$ 173,393,292	\$ (559,562)
Unrestricted net position	20,188,031	14,765,394	5,422,637
Total net position	<u>\$ 193,021,761</u>	<u>\$ 188,158,686</u>	<u>\$ 4,863,075</u>
General revenues			
Taxes	\$ 11,275,285	\$ 10,371,956	\$ 903,329
State revenue sharing	368,486	364,712	3,774
Governmental revenues	30,667	124,341	(93,674)
Miscellaneous	1,069,685	74,388	995,297
Total general revenues	<u>12,744,123</u>	<u>10,935,397</u>	<u>1,808,726</u>
Total expenses	<u>7,881,048</u>	<u>11,380,456</u>	<u>(3,499,408)</u>
Change in net position	<u>\$ 4,863,075</u>	<u>\$ (445,059)</u>	<u>\$ 5,308,134</u>

The Levee District's net position increased from operations by \$4,863,075 during the fiscal year ended June 30, 2019.

Analysis of Individual Funds of the Levee District

The activity in the individual funds is reflected in the Balance Sheet – Governmental Funds and the Statement of Revenues, Expenditures and Changes in Fund Balances – Governmental Funds. The total net position and the change in net position as reflected in the government-wide financial statements (which are condensed above) are reconciled with the fund financial statements at the bottom of the respective statements.

MANAGEMENT'S DISCUSSION AND ANALYSIS

Analysis of Budgeted Amounts

A comparison of budget to actual for the general fund, capital projects fund and the debt service fund is presented as a required supplemental statement. The annual budget is approved by the Board of Commissioners each year. The budgets are then submitted for approval to the Joint Legislative Committee on the budget no later than ninety days prior to the end of each fiscal year for the succeeding fiscal year for review.

The Levee District prepares the original budget for the subsequent year based on estimates of revenues and expenses for the current year. The Levee District makes assumptions about the subsequent year based on various factors available to management at the time the original budget is prepared. Management relies on the estimates and assumptions to determine how revenues and expenses for the subsequent year may fluctuate from the previous year.

Economic Factors and Next Year's Budgets

The Levee District does not expect any significant variances for revenue or expenditure accounts between fiscal years ending June 30, 2019 and June 30, 2018.

Capital Assets and Long-Term Debt Administration

Capital Assets

As of June 30, 2019, the Levee District had \$172,833,730 (net of depreciation) invested in a broad range of capital assets including land, building, equipment and infrastructure (lock system, pump stations and pumps). During the current year, the Levee District recorded \$275,978 of capital acquisitions and \$835,540 of depreciation. The beginning capital assets were restated as a result of conveyed property from the US Army Corps of Engineers. See notes to the financial statements for further discussion.

Long Term Debt

The Levee District has recorded compensated absences payable as of June 30, 2019, in the amount of \$237,191, which represents an increase of \$12,012 from the prior year.

Also included in long term debt is the other post-employment benefits liability for retiree's benefits in the amount of \$7,316,074 as required under Government Accounting Standard Board Statements No. 75 – *Accounting and Financial Reporting for Postemployment Benefits Other than Pensions*. See notes to financial statements for further discussion.

Also included in long term debt is the net pension liability for retiree's benefits in the amount of \$6,673,912 as required under Government Accounting Standard Board Statements No. 68 – *Accounting and Financial Reporting by Employers for Pensions*. See notes to financial statements for further discussion.

Contacting the Levee District's Financial Management

This report is designed to provide our citizens, taxpayers and creditors with a general overview of the Levee District's finances. If you have any questions regarding this report, contact Monica Salins Gorman at 225-869-9721.

Amounts reported for governmental activities in the statement of activities are different because:

Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is capitalized in the statement of net position.	
This is the amount by which depreciation exceeded capital outlay during the year.	(559,563)
Governmental funds report changes in certain liabilities in the General Long-Term Debt Account Group, however the changes affect costs in the statement of activities.	
Personnel cost increase due to compensated absences.	(12,012)
Pension expense – net of retirement contributions	361,931
Adjusted for other post-employment benefits	<u>41,029</u>
Change in net position of governmental activities	<u>\$ 4,863,075</u>

The accompanying notes are an integral part of these financial statements.

PONTCHARTRAIN LEVEE DISTRICT
STATE OF LOUISIANA
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2019

INTRODUCTION

The Board of Levee Commissioners of the Pontchartrain Levee District (the "Levee District") was created by Louisiana Revised Statute 38:291. The Levee District includes all or portions of the following parishes: East Baton Rouge, Iberville, Ascension, St. James, St. John the Baptist and St. Charles. The Levee District primarily provides flood protection for those areas in the Levee District and is authorized to construct and maintain levees, levee drainage, pumps, pumping stations, drainage canals, sea wall, jetties, and breakwaters in the district to protect the lands from overflow and particularly from hurricane floodwaters and from inundation from tidewaters from the Gulf of Mexico. The Levee District administers the operations and responsibilities of Louisiana Statutes. Members of the Board are appointed by the Governor in accordance with the provisions of Louisiana Revised Statute 38:304.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

In June 1999, the Governmental Accounting Standards Board (GASB) approved Statement No. 34, "*Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments*". The State of Louisiana and its components elected to implement the provision of this statement for the year ended June 30, 2002. The implementation of this statement has created additional statements, schedules, reports and note disclosures as follows:

- A Management Discussion and Analysis (MD&A) section providing an analysis of the overall financial position and results of operations.
- Financial Statements are prepared using the full accrual accounting methods:
 - Depreciation is recorded on depreciable assets, and property and equipment (including infrastructure) is recorded net of accumulated depreciation.
- The basic financial statements include Government-wide Statements and Fund Financial Statements, as explained in the following note disclosures:

Reporting Entity

Governmental Accounting Standards Board Statement No. 14 established criteria for determining which component units should be considered part of the reporting entity for financial reporting purposes. The basic criterion for including a potential component unit within the reporting entity is financial accountability. The GASB has set forth criteria to be considered in determining financial accountability. The criteria includes:

1. Appointing a voting majority of an organization's governing body, and
 - a. The ability of the State to impose its will on that organization and/or
 - b. The potential for the organization to provide specific financial benefits to or impose specific financial burdens on the State.
2. Organizations for which the State does not appoint a voting majority but are fiscally dependent on the State.
3. Organizations for which the reporting entity financial statement would be misleading if data of the organization is not included because of the nature or significance of the relationship.

PONTCHARTRAIN LEVEE DISTRICT
STATE OF LOUISIANA
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2019

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued):

Because the State of Louisiana, via the Governor, appoints all of the member of the Levee District's governing board and has the ability to impose its will on the Levee District, the Levee District was determined to be a component unit of the State of Louisiana. The accompanying financial statements present information only on the funds maintained by the Levee District and do not present information on the State of Louisiana, the general government services provided by that government unit, or the other governmental units that comprise the financial reporting entity.

Government-wide and fund financial statements

The government-wide financial statements (i.e., the statement of net position and the statement of changes in net position) report information on all of the non-fiduciary activities of the primary government.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include (1) charges to customers or applicants who purchase, use or directly benefit from goods, services, or privileges provided by a given function or segment and (2) grants and contributions that are restricted to meeting the operation or capital requirements of a particular function or segment. Other items not properly included among program revenues are reported instead as *general revenues*. Major individual governmental funds are reported as separate columns in the fund financial statements.

Policies specific to the government-wide financial statement are as follows:

Eliminating Internal Activity

Interfund receivables and payables are eliminated in the Statement of Net Position except for the net residual amounts due between governmental and business-type activities. These are presented as internal balances. The Levee District has no business-type activities.

Application of FASB Statement and Interpretations

Reporting on governmental-type activities is based on FASB Statement and Interpretations issued after November 30, 1989, except where they conflict or contradict FASB pronouncements.

Capitalizing Assets

Assets used in operation with an initial useful life that extends beyond one year are capitalized. Building, equipment, furniture and fixtures and infrastructure are depreciated over their estimated useful lives using the straight-line method. Depreciation is not calculated on land, land improvements or construction in progress. Accumulated depreciation is recorded net of depreciable assets in the Statement of Net Position.

Program Revenues

The Statement of Activities presents two categories of program revenues – (1) charges for services and (2) capital grants and contributions.

PONTCHARTRAIN LEVEE DISTRICT
STATE OF LOUISIANA
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2019

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued):

Charges for services – are revenues from exchanges or exchange like transactions with external parties that purchase, use or directly benefit from the program’s goods, services or privileges. These revenues include fees charged for specific services, licenses and permits, and operating special assessment and include payments from exchange transactions with other governments. The Levee District receives no fees for services.

Capital grants and contributions – are resources that are restricted for operating purposes of a program. They include grants and contributions with restrictions that permit the resources to be used for programs operating of capital needs at the recipient government’s discretion.

Measurement focus, basis of accounting, and financial statement presentation

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statement is reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within thirty-one days after the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred as under accrual accounting.

Governmental Funds

Governmental funds are those through which most governmental functions typically are financed. Governmental funds reporting focuses on the sources, uses and balances of current financial resources. Expendable assets are assigned to various governmental funds according to the purpose for which they may or may not be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and liabilities is reported as fund balance.

The Levee District report the following major governmental funds:

General Fund

The General Fund is the general operating fund of the Levee District. It is used to account for all financial resources except those required to be accounted for in other funds.

PONTCHARTRAIN LEVEE DISTRICT
STATE OF LOUISIANA
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2019

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued):

Capital Projects Fund

The Capital Projects Fund is used to account for financial resources to be used for the acquisition or construction of major capital facilities. The fund is presently being used to account for the construction of the levee system and pumping stations in the Levee District.

Revenues – Exchange and Non-Exchange Transactions

Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon thereafter to be used to pay the liabilities of the current fiscal year. For the Levee District, available means expected to be received within thirty-one days of the fiscal year-end. Under the modified accrual basis, only interest is considered to be both measurable and available at fiscal year-end.

Non-exchange transactions, in which the Levee District receives value without directly giving value in return, includes grants and donations. On an accrual basis, revenue from grants and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements including timing requirements, which specify the year when resources are required to be used, matching requirements, in which the Levee District must provide local resources to be used for a specific purpose, and expenditure requirements, in which the resources are provided to the Levee District on a reimbursement basis. On a modified accrual basis, revenue from non-exchange transactions must be available before it can be recognized.

Revenues – Taxes

Ad valorem taxes are assessed on a calendar year basis, become due on November 15th of each year, and become delinquent on December 31st. Ad valorem taxes are recorded in the year the taxes are received. Sales taxes are recorded as revenue based on the month paid by the taxpayer. Sales taxes received by the Levee District in August are for the month of June and are recorded as a receivable as of June 30th. If taxes were recorded when assessed the amount recorded would not be materially different from the amount actually recorded in the financial statements.

Expenses/Expenditures

On an accrual basis of accounting, expenses are recognized at the time they are incurred. The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable.

Other Financing Sources (Uses)

In governmental fund accounting, transfers between funds, which are not expected to be repaid, are accounted for as other financing sources (uses). In those cases where repayment is expected, the advances are accounted for through the various "due from" and "due to" accounts. These amounts are eliminated in the government-wide financial statements.

PONTCHARTRAIN LEVEE DISTRICT
STATE OF LOUISIANA
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2019

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued):

Proceeds from the issuance of bonds are accounted for as other financing sources in the governmental funds. These amounts are recorded as liabilities in the government-wide financial statements.

Property and Equipment

Property and Equipment are recorded at cost, if purchased or constructed. Assets acquired through contributions are capitalized at their estimated fair value, if available, or at estimated fair value or cost to construct at the date of the contribution. Equipment includes all items valued above \$5,000 and infrastructure includes the cost to construct and improve the pumps, pump stations and lock systems. Assets are depreciated using the straight-line method over the useful lives of the assets as follows:

<u>Asset</u>	<u>Years</u>
Automobiles	5
Equipment	5-10
Furniture and Fixtures	7
Buildings	40
Infrastructure	40-50

The Levee District provides general maintenance to forty-four miles of levees, which are not recorded in these financial statements because the District does not own the levees and is not responsible for significant maintenance on them.

Under GASB Statement No. 34, the government-wide financial statements and the fund financial statements do not include the General Fixed Asset Account Group.

Long-Term Obligations

Long-term obligations are reported at face value.

Under GASB Statement No. 34, the government-wide financial statement and the fund financial statements do not include the General Long-Term Debt Account Group.

Budget Practices

The budget practices of the Levee District are prescribed by Louisiana Revised Statute 38:318. This statute requires the Levee District to submit its annual budget to the Joint Legislative Committee on the Budget, no later than 90 days prior to the end of each fiscal year for the succeeding fiscal year for review.

The Levee District prepares budgets for all its funds but does not budget the beginning fund balance for the Debt Service Fund. The budgets are adopted on a basis consistent with Generally Accepted Accounting Principles (GAAP). The budgets were amended once during the fiscal year.

PONTCHARTRAIN LEVEE DISTRICT
STATE OF LOUISIANA
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2019

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued):

Amendments to the budget must be approved by the Board of Commissioners.

Appropriations which are not expended lapse at year end.

Encumbrances

Encumbrance accounting is not utilized by the Levee District.

Cash, Cash Equivalents and Investments

Cash and cash equivalents include demand deposits in banks and the State Treasury. The caption "cash" on the Statement of Net Position includes all cash on deposit at banks, including certificates of deposit with an original maturity of less than 90 days. If the original maturity exceeds 90 days, they are classified as investments.

Louisiana state law allows all political subdivisions to invest excess funds in obligations of the United States, certificates of deposit of any bank domiciled or having a branch office in the State of Louisiana or any other federally insured investments, guaranteed investment contracts and investment grade (A-1/P-1) commercial paper of domestic corporations.

Louisiana state law requires deposits (cash and certificates of deposit) of all political subdivisions be fully collateralized at all times. Acceptable collateralization includes the FDIC insurance and the market value of securities purchased and pledged to the political subdivision. Obligations of the United States, the State of Louisiana and certain political subdivisions are allowed as security for deposits. Obligations furnished as security must be held by the political subdivision or with an unaffiliated bank or trust company for the account of the political subdivision. The market value of the demand deposits and certificates of deposit is equal to their cost.

Compensated Absences

Employees earn and accumulate annual and sick leave at various rates based on their years of service. The amount of annual and sick leave that may be accumulated by each employee is unlimited. Upon termination, an employee is compensated for up to 300 hours of unused annual leave at the employee's hourly rate of pay. Upon retirement, unused annual leave in excess of 300 hours plus unused sick leave is considered in computing the years of service for retirement benefit purposes.

Inventories

Inventories of fuel and mower parts are valued at the lower of cost or market and are recorded as expenditures at the time individual inventory items are purchased. The Levee District uses a periodic inventory system and values its inventory using the first-in, first-out (FIFO) valuation method. Reported inventories are equally offset by a fund balance reserve which indicates that they do not constitute available expendable resources even though they are a component of net position.

PONTCHARTRAIN LEVEE DISTRICT
STATE OF LOUISIANA
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2019

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued):

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amount of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from those estimates.

Fund Balance Classification Policies and Procedures

GASB 54 requires fund balances to be categorized as non-spendable, restricted, committed, assigned, and unassigned. Non-spendable fund balance includes amounts that cannot be spent because they are either not in spendable form or legally or contractually required to be maintained intact. Amounts that are restricted are those in which constraints have been placed on the use of the resource. Committed fund balances are those amounts that can only be used for a specific purpose pursuant to constraints imposed by formal action of the Board of Commissioners. Assigned amounts are those that are constrained by management and the governing body, intended for a specific purpose, and not imposed by formal actions. Unassigned fund balance is a residual classification for those amounts not restricted, committed, or assigned.

NOTE 2. JUDGEMENTS, CLAIMS, AND SIMILAR CONTIGENCIES:

The Levee District is a defendant in several lawsuits involving disputed land ownership and right-of-way. The estimate of the amount or range of loss is between approximately \$1.5 million and \$20 million. Per GASB Codification C50, legal counsel's opinion is that the potential loss is reasonably possible but not probable.

NOTE 3. PER DIEM PAID BOARD MEMBERS:

Per diem payments are presented on Schedule IV. The per diem payments are authorized by Louisiana Revised Statute 38:308.

NOTE 4. DEPOSITS IN FINANCIAL INSTITUTIONS:

Cash and Cash Equivalents

The carrying amounts of the Levee District's deposits are as follows for the year ended June 30, 2019:

Demand deposits	<u>\$ 11,859,098</u>
-----------------	----------------------

Custodial credit risk

Under State law, deposits must be secured by federal deposit insurance or the pledge of securities owned by the fiscal agent bank. The market value of the pledged securities plus the federal deposit insurance must at all times equal the amount on deposit with the fiscal agent. These pledged securities are held in the name of the pledging fiscal agent bank in a holding or custodial bank in the form of safekeeping receipts held by the State Treasurer.

At June 30, 2019, the Levee District has \$11,859,098 in bank balances for cash deposits which is not necessarily equal to the balance sheet cash balance due to outstanding items. \$250,000 of the bank balances are covered by FDIC Insurance, the remaining \$11,609,098 of deposits are secured with pledged securities held by the Levee District's agent in Pontchartrain Levee District's name.

	\$ 14,609,961	\$ 12,012	\$ (394,796)	\$ -	\$ 14,227,177	\$ -

PONTCHARTRAIN LEVEE DISTRICT
STATE OF LOUISIANA
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2019

NOTE 7. INVESTMENTS:

The Levee District maintains investment account as authorized by Louisiana Revised Statute 33 2955. Investments are stated at fair value. Per Louisiana Revised Statute 39 255, the Levee District may only invest in specified obligations. The current investment obligations are in accordance with the State statute and rated AAA by Standard and Poor's Moody's Investors Service and Fitch Ratings

Custodial credit and interest rate risk

Investments can be exposed to custodial credit risk if the securities underlying the investment are uninsured, not registered in the name of the entity, and are either held by the counterparty or the counterparty's trust department or agent but not in the entity's name. The following table shows each type of investment and discloses the total carrying amounts and market values. All investments listed below are registered in the name of the Levee District.

Investments at June 30, 2019, are comprised of:

	Reported Amount	Market Value
LAMP	\$ 15,786,924	\$ 15,786,924
US Government Securities	17,907,265	17,907,265
	\$ 33,694,189	\$ 33,694,189

LAMP is administered by LAMP, Inc., a non-profit corporation organized under the laws of the State of Louisiana. Only local government entities having contracted to participate in LAMP have an investment interest in its pool of assets. The primary objective of LAMP is to provide a safe environment for the placement of public funds in short-term, high quality investments. The LAMP portfolio includes only securities and obligations in which local governments in Louisiana are authorized to invest in accordance with LSA – R.S. 33:2955. LAMP investment guidelines and historical information are available on its website www.lamppool.com or can be obtained by phoning (504) 525-LAMP.

LAMP is a 2a7 like investment pool. The following facts are relevant for 2a7 like investment pools as they relate to FASB Statement No. 40: Credit Risk: LAMP is rated AAA by Standard & Poor's; Custodial Credit Risk: LAMP participants' investments in the pool are evidenced by shares of the pool. Investments in the pool are not categorized in the three risk categories provided by GASB because the investment are in a pool of funds; and therefore, not evidenced by securities that exist in physical or book entry form; Concentration of credit risk: Pooled investments are excluded from the 5% disclosure requirement; Interest rate risk: 2a7 like investment pools are excluded from this disclosure requirement; Foreign currency risk: Not applicable to 2a7 like pools.

The dollar weighted average portfolio maturity of LAMP assets is restricted to not more than 90 days and consists of no securities with a maturity in excess of 397 days. LAMP is designed to be highly liquid to give its participants immediate access to their account balances. The investments in LAMP are stated at fair value based on quoted market rates. The fair value is determined on a weekly basis by LAMP, and the value of the position in the external investment pool is the same as the value of the pool shares. LAMP, Inc. is subject to the regulatory oversight of the State Treasurer and the Board of Directors. LAMP is not registered with the SEC as an investment company.

The Levee District's investment policy does not allow for funds contracted with an investment advisor, for management purposes to exceed ten percent of the advisor's assets under management.

PONTCHARTRAIN LEVEE DISTRICT
STATE OF LOUISIANA
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2019

NOTE 7. INVESTMENTS (continued):

In accordance with its investment policy, the Levee District manages its exposure to declines in fair values by permitting shifts along the yield curve and between sectors of the fixed income market. The Levee District minimizes risk through diversification, thus the portfolio may not hold more than thirty percent at cost of any single bond issue.

Maturities of investments

The maturity of the US Government Securities are as follows:

1 to 5 years	\$ 16,751,830
6 to 10 years	<u>1,155,435</u>
	<u>\$ 17,907,265</u>

NOTE 8. FAIR VALUE MEASUREMENTS

Investments can be exposed to custodial credit risk if the securities underlying the investment are uninsured, not registered in the name of the entity, and are either held by the counterparty or the counterparty's trust department or agent, but not in the entity's name. Repurchase agreements are not subject to credit risk if the securities underlying the repurchase agreement are exempt from credit risk disclosure. The following investments are uninsured, unregistered and held by counterparty's trust department or agent not in the entity's name.

GASB Statement No. 72, *Fair Value Measurement and Application*, requires disclosures to be made about fair value measurements, the level of fair value hierarchy, and valuation techniques. The fair value hierarchy categorizes the inputs to valuation techniques used to measure fair value into three levels.

- a. Level 1 inputs – the valuation is based on quoted market prices for identical assets or liabilities traded in active markets;
- b. Level 2 inputs – the valuation is based on quoted market prices for similar instruments traded in active markets, quoted prices for identical or similar instruments in markets that are not active, and inputs other than quoted prices that are observable for the asset or liability.
- c. Level 3 inputs – the valuation is determined by using the best information available under the circumstances, might include the government's own data, but it should adjust those data if (a) reasonably available information indicates that other market participants would use different data or (b) there is something particular to the government that is not available to other market participants.

PONTCHARTRAIN LEVEE DISTRICT
STATE OF LOUISIANA
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2019

NOTE 8. FAIR VALUE MEASUREMENTS (continued):

Fair values of assets measured on a recurring basis at June 30, 2019 are as follows:

	<u>Fair Value</u>	<u>Quoted Prices in Active Markets for Identical Assets (Level 1)</u>	<u>Other Observable Inputs (Level 2)</u>	<u>Significant Unobservable Inputs (Level 3)</u>
Fixed Income Investments	\$ 33,694,189	\$ -	\$ 33,694,189	\$ -

Fair values for the District’s investments categorized in Level 1 would have been obtained using quoted prices from active markets in which these securities are traded. Fair values for investments categorized in Level 2 have been provided by the District’s investment advisors, or other sources and are based on other observable inputs. The District has no investments categorized in Level 3.

NOTE 9. POSTRETIREMENT BENEFITS OTHER THAN PENSIONS (OPEB):

General Information about the OPEB Plan

Plan Description and Benefits Provided

The Office of Group Benefits (OGB) administers the State of Louisiana Post-Retirement Benefits Plan – a defined-benefit, multi-employer other postemployment benefit plan. The plan provides medical, prescription drug, and life insurance benefits to retirees, disabled retirees, and their eligible beneficiaries through premium subsidies. Current employees, who participate in an OGB health plan while active, are eligible for plan benefits if they are enrolled in the OGB health plan immediately before the date of retirement and retire under one of the state sponsored retirement systems (Louisiana State Employees’ Retirement System, Teachers’ Retirement System of Louisiana, Louisiana School Employees’ Retirement System, or Louisiana State Police Retirement System) or they retire from a participating employer that meets the qualifications in the Louisiana Administrative Code 32:3:303. Benefit provisions are established under R.S. 42:851 for health insurance benefits and R.S. 42:821 for life insurance benefits. The obligations of the plan members, employer(s), and other contributing entities to contribute to the plan are established or may be amended under the authority of R.S. 42:802.

There are no assets accumulated in a trust that meets the criteria of paragraph 4 of GASB Statement 75. Effective July 1, 2008, an OPEB trust fund was statutorily established; however, this plan is not administered as a trust and no plan assets have been accumulated as of June 30, 2018. The plan is funded on a “pay-as-you-go basis” under which the contributions to the plan are generally made at about the same time and in about the same amount as benefit payments become due.

PONTCHARTRAIN LEVEE DISTRICT
STATE OF LOUISIANA
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2019

NOTE 9. POSTRETIREMENT BENEFITS OTHER THAN PENSIONS (OPEB) (continued):

Employer Contributions are based on plan premiums and the employer contribution percentage. Premium amounts vary depending on the health plan selected and if the retired member has Medicare coverage. OGB offers retirees four self-insured healthcare plans and one fully insured plan. Retired employees who have Medicare Part A and Part B coverage also have access to four fully insured Medicare Advantage plans.

The employer contribution percentage is based on the date of participation in an OGB plan and employee years of service at retirement. Employees who begin participation or rejoin the plan before January 1, 2002, pay approximately 25% of the cost of coverage (except single retirees under age 65, who pay approximately 25% of the active employee cost). For those beginning participation or rejoining on or after January 1, 2002, the percentage of premiums contributed by the employer and retiree is based on the following schedule:

OGB Participation	Employer Share	Retiree Share
Under 10 years	19%	81%
10 - 14 years	38%	62%
15 - 19 years	56%	44%
20+ years	75%	25%

In addition to healthcare benefits, retirees may elect to receive life insurance benefits. Basic and supplemental life insurance is available for the individual retirees and spouses of retirees subject to maximum values. Employers pay approximately 50% of monthly premiums for individual retirees. The retiree is responsible for 100% of the premium for dependents. Effective January 1, 2018, the total monthly premium for retirees varies according to age group.

Total Collective OPEB Liability and Changes in Total Collective OPEB Liability

At June 30, 2019, the District reported a liability of \$7,316,074 for its proportionate share of the total collective OPEB liability. The total collective OPEB liability was measured as of July 1, 2018 and was determined by an actuarial valuation as of that date.

The District’s proportionate share percentage is based on the employer’s individual OPEB actuarial accrued liability in relation to the total OPEB actuarial accrued liability for all participating entities included in the State of Louisiana reporting entity. At June 30, 2019, the District’s proportion was .0857%.

The total collective OPEB liability in the July 1, 2018 actuarial valuation was determined using the following actuarial methods, assumptions and other inputs, applied to all periods included in the measurement, unless otherwise specified:

- Actuarial Cost Method – Entry Age Normal, level percentage of pay
- Estimated Remaining Service Lives – 4.5

PONTCHARTRAIN LEVEE DISTRICT
STATE OF LOUISIANA

OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

For the year ended June 30, 2019, the District recognized OPEB expense of \$156,827. At June 30, 2019, the District reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Changes of assumptions or other inputs	\$ -	\$ (492,907)
Differences between benefit payments and proportionate share of benefit payments	-	(111,466)
Amounts paid by the employer for OPEB subsequent to the measurement date	(196,723)	-
Total	\$ (196,723)	\$ (604,373)

Deferred outflows of resources related to OPEB resulting from the District's benefit payments subsequent to the measurement date will be recognized as a reduction of the total collective OPEB liability in the year ended June 30, 2019. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

Year Ended	Net Amount Recognized in OPEB Expense
2020	\$ (206,695)
2021	(206,695)
2022	(145,998)
2023	(44,985)
	\$ (604,373)

PONTCHARTRAIN LEVEE DISTRICT
STATE OF LOUISIANA
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2019

NOTE 10. COMMITMENTS AND CONTINGENCIES:

The approved Chief's Report was issued on June 12, 2015. Language for authorization was submitted for inclusion in the Water Infrastructure Improvements for the Nation (WIIN) Act which was signed into law on December 19, 2016. The Corps has drafted a Memorandum of Understanding (MOU) regarding costs which is currently being reviewed by PLD and CPRA. Currently, the estimated cost of said project is in excess of \$750,000,000, with such modifications as in the discretion of the Chief of Engineers of USACE may be advisable.

NOTE 11. SUBSEQUENT EVENTS:

Management has evaluated events through August 30, 2019, the date which the financial statements were available for issue. There were no items to be reported as subsequent events.

NOTE 12. LEVEE DISTRICT TAXES:

Article 6, Section 39 of the 1974 Louisiana Constitution provides that for the purpose of constructing and maintaining levees, levee drainage, flood protection, hurricane flood protection and for all other purposes incidental thereto, the Levee District may levy annually a tax not to exceed five mills. If the Levee District needs to raise additional funds in excess of the amount collected constitutionally, the taxes in excess of five mills must be approved by a majority vote of the electors. The Levee has levied a tax of 3.52 mills.

NOTE 13. INFRASTRUCTURE:

The U.S. Army Corps of Engineers purchased the Right-of-Way from landowners which the levees now rest upon. Major maintenance to this mainline Mississippi River Levee fall under the Mississippi River & Tributaries project which Congress contributes annually to in the President's budget. The levees are along the corridor along the river. The Levee District provides minor maintenance such as grass cutting along the east bank of the levee from East Baton Rouge Parish to St. Charles Parish which is approximately 115 miles long. The approximate cost of the levees as determined by the Corps of Engineers is \$484,064 per mile for the total cost of \$55,667,360. As such levees provide vital protection to the large petro-chemical industries located along the river from the annual spring rise in river levels.

The Lake Pontchartrain, Louisiana and Vicinity Hurricane Protection Project was authorized by Public Law 298, 89th Congress, 1st Session, and approved on October 27, 1965. The St. Charles Parish portion of the LPV was fully constructed to the original authorized design providing Standard Project Hurricane (SPH) protection from the Probable Maximum Hurricane (PMH). Following Hurricane Katrina, Congress authorized and funded the Hurricane and Storm Damage Risk Reduction System (HSDRRS) to reduce the risk associated with a storm surge event that a one percent chance of occurring in any given year, or a 100-year storm surge. The project includes approximately 9.5 miles of earthen levees, four drainage structures, five floodwalls and a railroad gate. Two pre-cast concrete access bridges were also constructed for access during construction and operation and maintenance. This project is still construction in progress and the amount conveyed to the District per the Army Corps of Engineers is \$151,703,862 as of June 30, 2019.

NOTE 14. GRANTORS:

Amounts received or receivable from grantor agencies are subject to audit and adjustment by such grantor agencies, principally the state of Louisiana. Any disallowed claims, including amounts collected, may constitute a liability of the applicable funds.

NOTE 15. RETIREMENT SYSTEM:

Pensions

For purposes of measuring the Net Pension Liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Louisiana State Employees' Retirement System (LASERS) and additions to/deductions from LASERS' fiduciary net position have been determined on the same basis as they are reported by LASERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

General Information about the Pension Plan

Plan Description

Employees of the District are provided with pensions through a cost-sharing multiple-employer defined benefit plan administered by the Louisiana State Employees' Retirement System (LASERS). Section 401 of Title 11 of the Louisiana Revised Statutes (La. R.S. 11:401) grants to LASERS Board of Trustees and the Louisiana Legislature the District to review administration, benefit terms, investments, and funding of the plan. LASERS issues a publicly available financial report that can be obtained at www.lasersonline.org.

Benefits Provided

The following is a description of the plan and its benefits and is provided for general information purposes only. Participants should refer to the appropriate statutes for more complete information.

1. Retirement

The age and years of creditable service required in order for a member to retire with full benefits are established by statute, and vary depending on the member's hire date, employer, and job classification. Our rank and file members hired prior to July 1, 2006, may either retire with full benefits at any age upon completing 30 years of creditable service or at age 60 upon completing ten years of creditable service depending on their plan. Those members hired between July 1, 2006 and June 30, 2015, may retire at age 60 upon completing five years of creditable service and those hired on or after July 1, 2015 may retire at age 62 upon completing five years of creditable service. The basic annual retirement benefit for members is equal to 2.5% to 3.5% of average compensation multiplied by the number of years of creditable service. Additionally, members may choose to retire with 20 years of service at any age, with an actuarially reduced benefit.

PONTCHARTRAIN LEVEE DISTRICT
STATE OF LOUISIANA
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2019

NOTE 15. RETIREMENT SYSTEM (continued):

Average compensation is defined as the member's average annual earned compensation for the highest 36 consecutive months of employment for members employed prior to July 1, 2006. For members hired July 1, 2006 or later, average compensation is based on the member's average annual earned compensation for the highest 60 consecutive months of employment. The maximum annual retirement benefit cannot exceed the lesser of 100% of average compensation or a certain specified dollar amount of actuarially determined monetary limits, which vary depending upon the member's age at retirement. Judges, court officers, and certain elected officials receive an additional annual retirement benefit equal to 1.0% of average compensation multiplied by the number of years of creditable service in their respective capacity. As an alternative to the basic retirement benefits, a member may elect to receive their retirement throughout their life, with certain benefits being paid to their designated beneficiary after their death.

Act 992 of the 2010 Louisiana Regular Legislative Session, changed the benefit structure for LASERS members hired on or after January 1, 2011. This resulted in three new plans: regular, hazardous duty, and judges. The new regular plan includes regular members and those members who were formerly eligible to participate in specialty plans, excluding hazardous duty and judges. Regular members and judges are eligible to retire at age 60 after five years of creditable service and, may also retire at any age, with a reduced benefit, after 20 years of creditable service. Hazardous duty members are eligible to retire with twelve years of creditable service at age 55, 25 years of creditable service at any age or with a reduced benefit after 20 years of creditable service. Average compensation will be based on the member's average annual earned compensation for the highest 60 consecutive months of employment for all three new plans. Members in the regular plan will receive a 2.5% accrual rate, hazardous duty plan a 3.33% accrual rate, and judges a 3.5% accrual rate. The extra 1.0% accrual rate for each year of service for court officers, the governor, lieutenant governor, legislators, House clerk, sergeants at arms, or Senate secretary, employed after January 1, 2011, was eliminated by Act 992. Specialty plan and regular members, hired prior to January 1, 2011, who are hazardous duty employees have the option to transition to the new hazardous duty plan.

Act 226 of the 2014 Louisiana Regular Legislative Session established new retirement eligibility for members of LASERS hired on or after July 1, 2015, excluding hazardous duty plan members. Regular members and judges under the new plan are eligible to retire at age 62 after five years of creditable service and, may also retire at any age, with a reduced benefit, after 20 years of creditable service. Average compensation will be based on the member's average annual earned compensation for the highest 60 consecutive months of employment. Members in the regular plan will receive a 2.5% accrual rate, and judges a 3.5% accrual rate, with the extra 1.0% accrual rate based on all years of service as a judge.

Members of the Harbor Police Retirement System who were members prior to July 1, 2014, may retire after 25 years of creditable service at any age, 12 years of creditable service at age 55, 20 years of creditable service at age 45, and 10 years of creditable service at age 60. Average compensation for the plan is the member's average annual earned compensation for the highest 36 consecutive months of employment, with a 3.33% accrual rate.

A member leaving employment before attaining minimum retirement age, but after completing certain minimum service requirements, becomes eligible for a benefit provided the member lives to the minimum service retirement age, and does not withdraw their accumulated contributions. The minimum service requirement for benefits varies depending upon the member's employer and service classification.

2. Deferred Retirement Benefits

The State Legislature authorized LASERS to establish a Deferred Retirement Option Plan (DROP). When a member enters DROP, their status changes from active member to retiree even though they continue to work and draw their salary for a period of up to three years. The election is irrevocable once participation begins. During DROP participation, accumulated retirement benefits that would have been paid to each retiree are separately tracked. For members who entered DROP prior to January 1, 2004, interest at a rate of

PONTCHARTRAIN LEVEE DISTRICT
STATE OF LOUISIANA
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2019

NOTE 15. RETIREMENT SYSTEM (continued):

one-half percent less than the System's realized return on its portfolio (not to be less than zero) will be credited to the retiree after participation ends. At that time, the member must choose among available alternatives for the distribution of benefits that have accumulated in the DROP account. Members who enter DROP on or after January 1, 2004, are required to participate in LASERS Self-Directed Plan (SDP) which is administered by a third-party provider. The SDP allows DROP participants to choose from a menu of investment options for the allocation of their DROP balances. Participants may diversify their investments by choosing from an approved list of mutual funds with different holdings, management styles, and risk factors.

Members eligible to retire and who do not choose to participate in DROP may elect to receive at the time of retirement an initial benefit option (IBO) in an amount up to 36 months of benefits, with an actuarial reduction of their future benefits. For members who selected the IBO option prior to January 1, 2004, such amount may be withdrawn or remain in the IBO account earning interest at a rate of one-half percent less than the System's realized return on its portfolio (not to be less than zero). Those members who select the IBO on or after January 1, 2004, are required to enter the SDP as described above.

For members who are in the Harbor Police Plan, the annual DROP Interest Rate is the three-year average (calculated as the compound average of 36 months) investment return of the plan assets for the period ending the June 30th immediately preceding that given date. The average rate so determined is to be reduced by a "contingency" adjustment of 0.5%, but not to below zero. DROP interest is forfeited if member does not cease employment after DROP participation.

3. Disability Benefits

Generally, active members with ten or more years of credited service who become disabled may receive a maximum disability retirement benefit equivalent to the regular retirement formula without reduction by reason of age.

Upon reaching age 60, the disability retiree may receive a regular retirement benefit by making application to the Board of Trustees.

For injuries sustained in the line of duty, hazardous duty personnel in the Hazardous Duty Services Plan will receive a disability benefit equal to 75% of final average compensation.

Members of the Harbor Police Retirement System who become disabled may receive a non-line of duty disability benefit after five years or more of credited service. Members age 55 or older may receive a disability benefit equivalent to the regular retirement benefit. Under age 55, the disability benefit is equal to 40% of final average compensation. Line of duty disability benefits are equal to 60% of final average compensation, regardless of years of credited service. If the disability benefit retiree is permanently confined to a wheelchair, or, is an amputee incapable of serving as a law enforcement officer, or the benefit is permanently legally binding, there is no reduction to the benefit if the retiree becomes gainfully employed.

4. Survivor's Benefits

Certain eligible surviving dependents receive benefits based on the deceased member's compensation and their relationship to the deceased. The deceased regular member hired before January 1, 2011 who was in state service at the time of death must have a minimum of five years of service credit, at least two of which were earned immediately prior to death, or who had a minimum of twenty years of service credit regardless of when earned in order for a benefit to be paid to a minor or handicapped child. Benefits are payable to an unmarried child until age 18, or age 23 if the child remains a full-time student. The aforementioned minimum service credit requirement is ten years for a surviving spouse with no minor children, and benefits are to be paid for life to the spouse or qualified handicapped child.

The deceased regular member hired on or after January 1, 2011, must have a minimum of five years of service credit regardless of when earned in order for a benefit to be paid to a minor child. The aforementioned minimum service credit requirements for a surviving spouse are 10 years, 2 years being earned immediately prior to death, and active state service at the time of death, or a minimum of 20 years of service credit regardless of when earned. A deceased member's spouse must have been married for at least one year before death.

PONTCHARTRAIN LEVEE DISTRICT
STATE OF LOUISIANA
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2019

NOTE 15. RETIREMENT SYSTEM (continued):

Non-line of duty survivor benefits of the Harbor Police Retirement System may be received after a minimum of five years of credited service. Survivor benefits paid to a surviving spouse without children are equal to 40% of final average compensation and cease upon remarriage. Surviving spouse with children under 18 benefits are equal to 60% of final average compensation, and cease upon remarriage, and children turning 18. No minimum service credit is required for line of duty survivor benefits which are equal to 60% of final average compensation to surviving spouse, regardless of children. Line of duty survivor benefits cease upon remarriage, and then benefit is paid to children under 18.

Certain eligible surviving dependents receive benefits based on the deceased member's compensation and their relationship to the deceased. The deceased member who was in state service at the time of death must have a minimum of five years of service credit, at least two of which were earned immediately prior to death, or who had a minimum of twenty years of service credit regardless of when earned in order for a benefit to be paid to a minor or handicapped child. Benefits are payable to an unmarried child until age 18, or age 23 if the child remains a full-time student. The aforementioned minimum service credit requirement is ten years for a surviving spouse with no minor children, and benefits are to be paid for life to the spouse or qualified handicapped child.

5. Permanent Benefit Increases/Cost-of-Living Adjustments

As fully described in Title 11 of the Louisiana Revised Statutes, the System allows for the payment of permanent benefit increases, also known as cost-of-living adjustments (COLAs), that are funded through investment earnings when recommended by the Board of Trustees and approved by the State Legislature.

Contributions

Contribution requirements of active employees are governed by Section 401 of Title 11 of the Louisiana Revised Statutes (La. R.S. 11:401) and may be amended by the Louisiana Legislature. Employee and employer contributions are deducted from a member's salary and remitted to LASERS by participating employers. The rates in effect during the year ended June 30, 2018 for the various plans follow:

<u>Plan</u>	<u>Plan Status</u>	<u>Employee Contribution Rate</u>	<u>Employer Contribution Rate</u>
Regular Employees and Appellate Law Clerks			
Pre Act 75 (hired before 7/1/2006)	Closed	7.5%	37.9%
Post Act 75 (hired after 6/30/2006)	Open	8.0%	37.9%
Optional Retirement Plan (ORP)			
Pre Act 75 (hired before 7/1/2006)	Closed	7.5%	37.9%
Post Act 75 (hired after 6/30/2006)	Closed	8.0%	37.9%

The District's contractually required composite contribution rate for the year ended June 30, 2019 was 37.90% of annual payroll, actuarially determined as an amount that, when combined with employee contributions, is expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any Unfunded Actuarial Accrued Liability. Contributions to the pension plan from the District were \$741,651 for the year ended June 30, 2019.

PONTCHARTRAIN LEVEE DISTRICT
STATE OF LOUISIANA
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2019

NOTE 15. RETIREMENT SYSTEM (continued):

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2019, the Employer reported a liability of \$6,673,912 for its proportionate share of the Net Pension Liability. The Net Pension Liability was measured as of June 30, 2018 and the total pension liability used to calculate the Net Pension Liability was determined by an actuarial valuation as of that date. The District's proportion of the Net Pension Liability was based on a projection of the District's long-term share of contributions to the pension plan relative to the projected contributions of all participating employers, actuarially determined. At June 30, 2019, the District's proportion was 0.09786%, which was an increase of 0.00012% from its proportion measured as of June 30, 2018.

For the year ended June 30, 2019, the District recognized pension expense of \$544,848 less employer's amortization of change in proportionate share and differences between employer contributions and proportionate share of contributions, \$165,128.

At June 30, 2019, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ -	\$ 74,841
Changes of assumptions	67,912	-
Net difference between projected and actual earnings on pension plan investments	-	-
Changes in proportion and differences between Employer contributions and proportionate share of contributions	86,539	68,343
Employer contributions subsequent to the measurement date	747,272	-
Total	\$ 901,723	\$ 143,184

\$747,272 reported as deferred outflows of resources related to pensions resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the Net Pension Liability in the year ended June 30, 2019. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended June 30:

2020	\$	129,323
2021	\$	75,091
2022	\$	(163,099)
2023	\$	(24,424)

PONTCHARTRAIN LEVEE DISTRICT
STATE OF LOUISIANA
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2019

NOTE 15. RETIREMENT SYSTEM (continued):

Actuarial Assumptions

A summary of the actuarial methods and assumptions used in determining the total pension liability as of June 30, 2018 are as follows:

Valuation Date	June 30, 2018
Actuarial Cost Method	Entry Age Normal
Actuarial Assumptions:	
Expected Remaining Service Lives	3 years
Investment Rate of Return	7.65% per annum, net of investment expenses*
Inflation Rate	2.75% per annum
Mortality	Non-disabled members - Mortality rates based on the RP-2000 Combined Healthy Mortality Table with mortality improvement projected to 2015. Disabled members – Mortality rates based on the RP-2000 Disabled Retiree Mortality Table, with no projection for mortality improvement.
Termination, Disability, and Retirement	Termination, disability, and retirement assumptions were projected based on a five-year (2009-2013) experience study of the System's members.
Salary Increases	Salary increases were projected based on a 2009-2013 experience study of the System's members. The salary increase ranges for specific types of members are:

Member Type	Lower Range	Upper Range
Regular	3.8%	12.8%
Judges	2.8%	5.3%
Corrections	3.4%	14.3%
Hazardous Duty	3.4%	14.3%
Wildlife	3.4%	14.3%

Cost of Living Adjustments	The present value of future retirement benefits is based on benefits currently being paid by the System and includes previously granted cost of living increases. The projected benefit payments do not include provisions for potential future increases not yet authorized by the Board of Trustees as they were deemed not to be substantively automatic.
-----------------------------------	--

PONTCHARTRAIN LEVEE DISTRICT
STATE OF LOUISIANA
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2019

NOTE 15. RETIREMENT SYSTEM (continued):

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation of 3.25% and an adjustment for the effect of rebalancing/diversification. The resulting expected long-term rate of return is 8.83% for 2018. Best estimates of geometric real rates of return for each major asset class included in the pension plan's target asset allocation as of June 30, 2018 are summarized in the following table:

Asset Class	Long-Term Expected Real Rate of Return ¹
Cash	-0.48%
Domestic Equity	4.31%
International Equity	5.26%
Domestic Fixed Income	1.49%
International Fixed Income	2.23%
Alternative Investments	7.67%
Risk Parity	4.96%
Total Fund	5.40%

Discount Rate

The discount rate used to measure the total pension liability was 7.65%. The projection of cash flows used to determine the discount rate assumed that employee contributions will be made at the current contribution rates and that contributions from participating employers will be made at the actuarially determined rates approved by PRSAC taking into consideration the recommendation of the pension plan's actuary. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the Employer's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following presents the employer's proportionate share of the Net Pension Liability using the discount rate of 7.65%, as well as what the Employer's proportionate share of the Net Pension Liability would be if it were calculated using a discount rate that is one percentage point lower or one percentage point higher than the current rate:

	1.0% Decrease (6.75%)	Current Discount Rate (7.65%)	1.0% Increase (8.65%)
Employer's proportionate share of the net pension liability	\$ 8,422,921	\$ 6,673,912	\$ 5,167,585

Pension Plan Fiduciary Net Position

Detailed information about the pension plan's fiduciary net position is available in the separately issued LASERS 2018 Comprehensive Annual Financial Report at www.lasersonline.org.

(1) Schedule is intended to show information for 10 years. Additional years will be displayed as they become available.

Notes to Required Supplementary Information
 For the Year Ended June 30, 2019

Changes of Benefit Terms include:

- 2015 1) A 1.5% COLA, effective July 1, 2014, provided by Act 102 of the 2014 Louisiana Regular Legislative Session, and,
- 2015 2) Improved benefits for certain members employed by the Office of Adult Probation and Parole within the Department of Public Safety and Corrections as established by Act 852 of 2014, and,
- 2017 3) A 1.5% COLA, effective July 1, 2016, provided by Acts 93 and 512 of the 2016 Louisiana Regular Legislative Session, and,
- 2017 4) Added benefits for members of the Harbor Police Retirement System which was merged with LASERS effective July 1, 2015 by Act 648 of 2014.
- 2018 No changes identified in the 2017 RSI template, GASB 68 Note B, LASERS CAFR Note A, & Actuarial Valuation. No additional disclosure required.

Changes of Assumptions include:

2018 There were several changes in assumptions for the June 30, 2017 valuation. The Board adopted a plan to gradually reduce the discount rate from 7.75% to 7.50% in .05% annual increments, beginning July 1, 2017. Therefore, the discount rate was reduced from 7.75% to 7.70% for the June 30, 2017 valuation. A 7.65% discount rate was used to determine the projected contribution requirements for fiscal year 2018/2019. The Board reduced the inflation assumption from 3.0% to 2.75%, effective July 1, 2017. Since the inflation assumption is a component of the salary increase assumption, all salary increase assumptions decreased by .25%. In addition, the projected contribution requirement for fiscal year 2018/2019 includes direct funding of administrative expenses, rather than a reduction in the assumed rate of return, per Act 94 of 2016.

**Schedule of the Employer's Proportionate Share
of the Total Collective OPEB Liability
For the Year Ended June 30, 2019**

	Fiscal Year*		
	2019	2018	2017

Employer's proportionate share of the total collective OPEB liability	\$ 7,316,074	\$ 7,505,241	\$ 7,835,298
Employer's covered-employee payroll	\$ 1,944,528	\$ 1,793,476	\$ 2,019,014
Employer's proportionate share of the total collective OPEB liability as a percentage of the covered-employee payroll	376.24%	418.47%	388.08%

*The amounts presented were determined as of the measurement date (July 1).

This schedule is intended to show information for 10 years. Additional years will be presented as they become available.

Notes to Required Supplementary Information (Schedule 1)

There are no assets accumulated in a trust that meet the requirements in paragraph 4 of GASB Statement 75 to pay related benefits.

Changes in assumptions -

In the valuation for 2018, the discount rate increased from 2.71% to 3.13%
In the valuation for 2019, the discount rate decreased from 3.13% to 2.98%

Changes in population -

Changes in the District's census data including a decrease of the number of participating employees at July 1, 2017, from 46 employees to 45 employees.
Changes in the District's census data including a decrease of the number of participating employees at July 1, 2018, from 45 employees to 43 employees.

**PONTCHARTRAIN LEVEE DISTRICT
STATE OF LOUISIANA
SCHEDULE V
PER DIEM PAID BOARD MEMBERS
FOR THE YEAR ENDED JUNE 30, 2019**

The schedule of per diem paid to board members of the Levee District is presented in compliance with House Concurrent Resolution No. 54 of the 1979 Session of the Louisiana Legislature. Per diem payments are authorized by Louisiana Revised Statute 38:308 and are included in the general administrative expenditures of the General Fund. Board members are paid \$75 per meeting for up to 36 meetings each year, except the Board President who receives a per diem of \$1,000 per month.

Independent Auditors' Report on Internal Control Over Financial Reporting and on
Compliance and Other Matters Based on an Audit of Financial Statements Performed in
Accordance with
Government Auditing Standards

Board of Levee Commissioners of the
Pontchartrain Levee District
State of Louisiana
Lutcher, Louisiana

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of the governmental activities and each major fund of the Pontchartrain Levee District (the "Levee District"), a component unit of the State of Louisiana, as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the Levee District's basic financial statements and have issued our report thereon dated August 30, 2019.

Internal Control over Financial Reporting

In planning and performing our audit, we considered the Levee District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Levee District's internal control. Accordingly, we do not express an opinion on the effectiveness of the Levee District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect, and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statement will not be prevented or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Levee District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances on noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and no to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Broussard and Company

Lake Charles, Louisiana
August 30, 2019

BOARD OF COMMISSIONERS
PONTCHARTRAIN LEVEE DISTRICT
STATE OF LOUISIANA
SCHEDULE OF FINDING AND RESPONSES
FOR THE YEAR ENDED JUNE 30, 2019

We have audited the financial statements of the governmental activities and each major fund of the Board of Levee Commissioners of the Pontchartrain Levee District (“the Levee District”) as of and for the year ended June 30, 2019 and have issued our report thereon dated August 30, 2019. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing standards*, issued by the Comptroller General of the United States. Our audit of the financial statements as of June 30, 2019 resulted in a unmodified opinion.

Section I – Summary of Auditor’s Reports

a. Report on Internal control and compliance Material to the Financial Statements:

Internal Control:

Material Weakness – NO
Significant Deficiency – NO
Other Conditions – NO

Compliance:

Compliance Material to the Financial Statements – NO

b. Federal Awards:

Not applicable.

Section II – Financial Statement Findings

Not applicable.

Section III – Federal Award Findings and Questioned Costs

Not applicable.

Section IV – Management Letter

A management letter was not issued in connection with the audit for the year ended June 30, 2019.

Other Postemployment Benefits (OPEB)

If your agency has active or retired employees who are members of the Office of Group Benefits (OGB) Health Plan, please provide the following information: (Note: OGB has a 6/30/2018 measurement date for their OPEB valuation)

Benefit payments made subsequent to the measurement date of the **OGB** Actuarial Valuation Report until the employer's fiscal year end. (Benefit payments are defined as the employer payments for retirees' health and life insurance premiums). For agencies with a 6/30 year end this covers the current fiscal year being reported. For calendar year end agencies, it covers the period 7/1 to 12/31 for the current year being reported. 196,722.95

Covered Employee Payroll for the **PRIOR** fiscal year (not including related benefits) 1,835,656.00

For calendar year-end agencies only: Benefit payments or employer payments for retirees' health and life insurance premiums made for the next year's valuation reporting period (7/1/2018 - 6/30/2019). This information will be provided to the actuary for the valuation report early next year. 0.00

For agencies that have employees that participate in the **LSU Health Plan**, provide the following information: (Note: The LSU Health Plan has a measurement date of 6/30/2019 for their OPEB valuation report.)

Covered Employee Payroll for the **CURRENT** fiscal year (not including related benefits) 0.00
